PREFATORY NOTES.

In this volume will be found the Journals of the first General Assembly of the State, held at New Bern from April 7 to May 9, 1777, together with those of the second session held from November 15 to December 24; and the Journals of the first session of the second Assembly, held at New Bern from April 14 to May 2, 1778, and also the Journal of the Senate for a special session convened by proclamation of Governor Caswell at Hillsboro on August 8, 1778. The members of the Assembly were chosen each year, and the election for 1778 was held on March 10 of that year.

The Editor has also embodied in this volume an Orderly Book, kept by Jacob Turner, in the army of Washington, between July 5, 1777, and August 27, 1778, from which an insight can be obtained of the movements of the North Carolina Brigade of Continentals. From it we learn that while in the Continental army promotions were from the entire command, yet that rule was relaxed as to the North Carolina line, and promotions were allowed to be made regimentally, that practice having been adopted in organizing the North Carolina forces.

The action of the Assembly at its first session has been considered in notes to a previous volume. At its adjourned session various important measures engaged its attention.

It being represented that probably a large force would be needed for the service at the North, the Legislature promptly passed a bill empowering the Governor if the necessity arose to have five thousand militia drafted and sent Northward. But it does not appear that the contingency happened, although in the following Spring a large force of militia was sent South.

Again, at the Assembly of April, 1778, a requisition having been made by Congress and General Washington for two thousand men to fill the ranks of the North Carolina Continental regiments, it was resolved that a force of two thousand men be raised, as expeditiously as possible, to serve nine months, and the several counties were to furnish their quota, in proportion to the number of their militia. The Act offered a bounty of one hundred dol-

lars to each person who should voluntarily enlist, and it provided that the deficiency in each county should be filled by a draft.

For this purpose the field officers and the captains of each militia regiment were to determine how many men should be raised by each company; and the men and officers of each company were directed to vote by ballot and thus select those who were to be drafted; they being first sworn to vote for those who could best be spared. Each soldier so selected was to receive a bounty of fifty dollars, and also a good, serviceable outfit.

These men were collected and from time to time went forward; but despite these efforts the ranks of the Continental regiments, or battalions as they were called, continued so thin that later our regiments were consolidated. While such were the needs at the North, the danger towards the Southward seemed so threatening that the Governor was authorized to draw on the Continental Treasury for two millions five hundred thousand dollars to raise and equip troops to carry on the war in that quarter.

In the midst of the alarms of war, the Legislature still continued its work of perfecting civil government. The Court law which has received many encomiums was adopted; the English Statutes in force in the State were ascertained and declared; the powers of the County Courts were extended, and Superior Courts were established, from whose decisions as there were no higher courts there was no appeal. Superior Court Judges were elected in December, 1777, being Samuel Ashe, Samuel Spencer and James Iredell, and Waightstill Avery was elected Attorney General. Courts for the trial of civil causes that had so long been suspended were thus reopened in the Spring of 1778.

Laws were passed confiscating the property of citizens who absented themselves from the State; and further steps were taken to perfect the militia. Mr. William Skinner was elected Brigadier General of the Edenton District, and also Treasurer for the Northern District. A fort was built at Ocracock, and the better to protect the commerce passing through that inlet, a large row galley, built by the State of Virginia, was purchased, and was named the Caswell; and a fast sailing tender was bought to accompany her. The brigantines that had been built were sold for privateers.

Congress having recommended that there should be always

three delegates in attendance from each State, the Legislature resolved to elect four, so as to admit of one being absent.

In April, 1777, Mr. Hewes was not re-elected, the delegates being Burke, Hooper and Penn. Mr. Hooper having resigned, Cornelius Harnett was elected in his stead; and in April, 1778, Dr. Burke was not sent back, there probably being dissatisfaction with him, because in recommending the appointment of a Brigadier General, after the death of Genl. Moore, he had overlooked the North Carolina Colonels and had recommended Genl. Hand of Pennsylvania, which called forth a strong protest and remonstrance from the North Carolina officers.

To replace him, Abner Nash was elected, but he declining, John Williams of Granville, who was then Speaker of the House, was chosen.

The discussion in the Continental Congress upon the proposed articles of Confederation was largely participated in by Dr. Burke, and he transmitted to Gov. Caswell a brief of the argument. When the articles were laid before the General Assembly for its action, that body at its December session declined to ratify the entire instrument, resolving that certain articles designated "ought to be immediately ratified, but that the remaining articles containing matters highly important and interesting to the future of the people of this State, and involving what may very materially affect the internal interests and sovereign independence thereof, and not being immediately essential to the success of the present war, ought not to be ratified until there shall be full time and leisure for deliberately considering the same." And so careful were the patriots of those days about entering into an agreement with the other States that might injuriously affect the rights of the people, that the articles were not at once adopted. But at the next session, the Confederation was formally agreed to and the delegates were directed to sign them, and were given power and authority to bind the State in matters not inconsistent with their particular instructions.

SAM ASHE, S. S.

Sent by Mr. Cray & Mr. Love:

The House taking into Consideration a Message from the House of Commons of this day, with a Copy of a report of the Joint Committee to regulate the mode of Transacting business and the Ceremonial to be observed, &c., as amended by the Commons. Ordered the following Message be Sent to the House of Commons, to-wit:

Mr. Speaker and Gentlemen of the House of Commons:

The Joint Committee of the Senate & House of Commons having agreed that their report should be made in both Houses, it was accordingly done in the Senate by such of the Members of this House as were upon that committee. In consequence of this you received a Message Yesterday with the report Amended, but of which in your Message you have not taken any Notice.

This House Laments the time already lost to the public in adjusting Ceremonials and debating upon claims, which however Necessary for Transacting business, are not of any immediate service to the public.—In the report amended by your Hands, there does not appear any provision made in what manner an Election is to be determined in case of an equality of votes in favor of the Candidates; and not to enter at present into the Merit of other exceptionable claims, we are of Opinion that every Member of the General Assembly who may happen to be present when an Election Shall be made, Should have liberty to attend when the ballots are examined, that as they are called over, he may, if he thinks proper, keep an account of them. As it does not appear that there is any probability of Adjusting this disagreement by Messages, this House

in compliance with your proposal, have appointed Mr. Maclaine, Mr. Coor, Mr. Skinner, Mr. Cray, Mr. Rutherford, Mr. Hart, and Mr. Alexander to form a Joint Committee with such Members of your House as you may choose to appoint for the purpose of adjusting the Ceremonial, and ascertaining the mode of Conducting business between the two Houses.

Hill, and Mr. Pfifer, a Committee of Public Claims, and Mr. Green Hill, Mr. Swain, Mr. Ferrebie, Mr. Rochester, Mr. Penn, Mr. Person a Committee of Public Accounts, to Act Jointly with such Gentlemen of Your House as you think proper to Appoint.

A. NASH,
Speaker.

Rec'd from the Commons the following Message:

Mr. Speaker & Gentlemen of the Senate:

The House of Commons regrets that the adjusting the Ceremonial between the two Houses, has delayed the entering upon the more Substantial Business which is to become the subject of their deliberations, they consider however this delay as unavoidable, and have endeavored as far as in their power, to mitigate the Inconvenience by attending to other Matters, the prosecution of which might not clash with the Pretensions of Right or Preference in either House; earnestly wishing to adjust this Difference of Sentiment, they approve of the Expedient of a Conference proposed, and have accordingly appointed Mr. Hooper, Mr. Penn, Mr. Person, Mr. Avery, Mr. Jones, Mr. Butler, Mr. Lock, and Mr. Whitmill Hill a Committee to meet and confer with the Gentlemen by you mentioned.

12th Apr., 1777.

A. NASH,

Mr. Speaker & Gentlemen of the House of Commons:

A. NASH, Sp.

The House taking the said Message into Consideration Ordered the following Message be Sent to the Commons to-wit:

Mr. Speaker & Gentlemen of the House of Commons:

It appearing to this House of the utmost importance that every Member of the General Assembly Should have the liberty to be present when the Ballots are drawn, and See that they are fairly Numbered. We propose that the following addition be made to the third article. When all the Ballots Shall be taken the Inspectors Shall give Notice to their respective Houses, that such of the Members, as may think it Necessary, may attend to See that the Numbers are fairly taken.

This House have no Idea of a Conference without a presiding Member, nor can they See the propriety of trusting the Management of a Conference, to the few Members Solicited from each House, and taking their words for the result of it. Every Member of each House has a right to be present, and by that he will be able to Judge, whether the persons appointed by the House, of which he is a Member, have discharged their duty, besides, the arguments must be all repeated over again in each House, and most probably will be Misrepresented or put in a different light from that in which they first appeared. For these Reasons We propose that the following Regulations Stand in the place of the Sixth Article. In all Conferences, the two Houses shall meet in the Conference Room, and the Speaker of the Senate shall preside. The Members of the Senate shall take their seats on the right

hand of the Chair, and the Members of the House of Commons on the left. When the Conference is concluded the persons appointed to Manage Such Conference Shall report the result thereof to their respective Houses.

S. ASHE, S. S.

The Senate adjourned 'til to-morrow Morning 9 o'clock.

WEDNESDAY, 16th Apr., 1777.

Met According to Adjournment. Rec'd from the Commons the Resolve of that House as amended by them to-wit: Whereas, the Season is now Arrived when the Army of General Howe may attempt to leave the protection of their Ships to penetrate into the Interior parts of the Country, and retrieve if possible their loss of reputation Occasioned by the Various Successes obtained against them during the last Winter, through the unexampled bravery and Conduct of General Washington and the Troops under his Command. And as it is a Matter of much importance to these States, that such an attempt, if made, Should meet an Early and decisive Check, and as the Continental Congress have Ordered the Continental Regiments to March with all possible Expedition to join the Main Army in the Jersey's that General Washington may be in a Capacity to oppose the first Movements of our Enemies— Resolved therefore that it may be recommended to the Commanding Officer of the Troops immediately and without any delay to March off, from every part of this State, every Continental Soldier and

officer who is able saving only such as it may be Necessary to detain to forward the recruiting Service and that this Matter may be Conducted with the greatest ease and expedition, it is proposed that they should move in small divisions, Companies, and parts of Companies, as they can be made ready, without attending to Regimental Order, as small bodies of Men on their March will move readily, be supplied with provisions and a seasonable reinforcement tho' small will be more beneficial than a larger if procrastinated to a later period. This recommendation, this House expects will be strictly complied with, and they doubt not from the readiness which the Officers & Men have upon all occasions discovered to step forward in Support of the glorious Cause which first brought them into the field, that they will rush with eagerness to a part of the Continent where they will have an Opportunity to reap such an ample Harvest of Laurels to themselves and to do Honor to the particular state where they have been raised. The Officers who wait with a design to adjust any private business may rest assured that it shall be faithfully attended to, in the hands of any agents they may leave behind to Transact it and the just Claims they have against the State most honorably settled or paid. The Commanding Officer of the Troops will attend to the Necessity of not Overcharging the Marching Regiments with Officers.—That this Resolve be immediately Copied, and one Copy thereof sent to the Commanding Officer of the Continental Troops in this State, Another to the Commanding Officer at Halifax, and a third be fixed up in the most public part of this Town.

Mr. Speaker & Gentlemen of the House of Commons:

This House having Considered the Resolve of your House for appointing Col. Sheppard to the Command of a Regiment with power to appoint his own Officers, upon Conditions therein Mentioned, propose some Amendments to the Same first.

That the Three Hundred or any greater Number of men which shall be inlisted, shall be under Continental Regulations, and the recruiting Officers shall receive Twenty Shillings for every one of the said Men, which they shall so inlist; and the officers and Men shall be intitled to whatever future encouragement the General Assembly may think proper to give, in Order to forward the recruiting Service. In the second clause of your resolve for raising a New Regiment under Col. Shepard. We propose that you *delete* the word back as unnecessary, and in the third Clause instead of the words "*this date and*" you insert the words "*date of their commissions and the*"; In the place of the fourth clause we propose as above. That the three hundred &c. In the fifth clause instead of the word requested, We propose to insert the word impowered. With respect to the last clause in your Resolve, This House cannot agree to it, as it evidently tends to defeat the purpose for which the resolve was made, therefore we propose the whole of that clause be expunged.—If your House agree to these alteratiens, please to signify the same by Message, Make the resolve Conformable and send the same to this House for Concurrence.

This House have appointed Thomas Sitgreaves late Marshall of the said Court to the said Office of Marshall and desire your Concurrence in this Appointment without the formality of a Balloting, the same not being prescribed as a Necessary Mode by the Constitution for the Nominating and appointing such officers.

A. NASH,
Speaker.

The House taking the said Message into Consideration Ordered the following Message be Sent to the Commons, to-wit:

Mr. Speaker & Gentlemen of the House of Commons:

It is the unanimous Opinion of this House that although by the Letter, they are not confined to the Mode of Balloting for a Marshall of the Court of Admiralty, yet we have no doubt but the General Assembly are strictly bound by the spirit of the Constitution, which has prescribed the fairest & most impartial Mode of Election. This House are extremely apprehensive of establishing Precedents which may eventually tend, perhaps indeed, by imperceptible degrees to sap the very Foundation of our Liberties. Besides the House of Commons can scarcely have forgot the very recent Regulation made by both Houses, that when any Officer shall be proposed in either House, such Proposal shall be notified to the other House by Message. Should this House choose to appoint another person, it is plain that no Election wo'd take place. That the proceedings of the General Assembly may be consistent, we propose that a Marshall of the Court of Admiralty be appointed by joint Ballot of Both Houses agreeable to the Constitution. If you should concur with this House, you will please to mention the Time of taking the Ballots.

provision is made for perpetuating the same. It is therefore further resolved that the testimony of such aged and infirm persons and others residing out of this State, taken before two Justices of the peace of the State in which such persons shall reside, shall be received as good & sufficient testimony in any future Court of Law or Equity in this State, if such witness or witnesses, or his or their examination taken according to the course of practice in such Courts, cannot be procured at such trial. Rec'd from the Commons the following Message, to-wit:

Mr. Speaker & Gentlemen of the Senate:

This House have received and considered your Message proposing an alteration in the Tax Bill, and they approve much of your proposed amended, except in one article, that is in appointing assessors in each district, this measure is equal to at least one fourth or fifth of the whole annual tax, and will also be attended with much difficulty & trouble. Instead of the mode by you proposed for ascertaining the value of each person's estate, we propose the following, viz: That each person in the State shall give in an account on oath to the best of his or her knowledge and belief of the value of his or her estate real or personal, and that the other parts of the Bill be made agreeable and consistent with this amendment; with this alteration, this House will consent to your amendment.

A. NASH,
Speaker.

Ordered the following Message be Sent to the Commons viz:

Mr. Speaker & Gentlemen of the House of Commons:

We cannot agree with you that every person in the State should give an account of the value of his property on oath as by that mode of taxation absentees would be effectually screened from paying taxes for the support of Government, nor are we of opinion that the allowance to the assessors will amount to so great a proportion of the tax as you intimate, but if it should be thought that the sum allowed is too great, this House will be ready to lessen it to what shall be thought reasonable. By your proposal adopted a tax will be laid on every shilling of property in the State, which we apprehend was never in contemplation. We cannot help remarking that the mode of ascertaining property by assessors, is not an amendment of this House, it originated with you, and the Bill in that form has had the final sanction of your House by a third reading.

You will herewith receive for your approbation a resolve of this House determining the artillery company of this State to be on the Continental establishment, also appointing Henry Toomer Commissary to the said company, and to those soldiers who are sick in the Hospital at Wilmington.

A. NASH,
Speaker.

Ordered the following Message be sent to the Commons, to-wit:
Mr. Speaker & Gentlemen of the House of Commons:

This House cannot take upon them to resolve that the artillery company shall be considered as on the Continental establishment, and therefore have sent you a resolve that it be recommended to Congress to take this company into the pay of the Continent. Each branch of the Legislature has an undoubted right to nominate as well as to appoint all officers the right of whose appointment is vested in the General Assembly. For this reason this House cannot concur with your resolves for appointing the different Commissaries; but we have sent you resolves for appointing the persons nominated by you as Commissaries.

Resolved that it be recommended to the Congress to take into the pay of the Continent the artillery company in this State, and that Henry Toomer be appointed Commissary to the same, and to those soldiers who are sick in the Hospital at Wilmington.

Resolved that Jno. Williams be appointed Commissary to the Independent Company stationed at Ocracock Inlet commanded by Capt. James Anderson, and William Burden Commissary to Independent Company stationed at Beaufort commanded by Capt. Enoch Ward.

SAM ASHE, S. S.

Ordered the following Message be Sent to the Commons, viz:

Mr. Speaker & Gentlemen of the House of Commons:

Upon examining the lists of Justices of the several counties, we find that several gentlemen of merit are omitted in that for Cumberland, and that a certain Willis Scale, who bore arms against the good people of this State under General MacDonald, is one of the persons recommended to the Governor. We therefore propose that the name of William Scale be omitted in the Commission of the peace for the County of Cumberland. And that the names of John Lyon, Robert Rowan, Robert Cochran and Peter Mallet, gentlemen of probity and integrity and formerly in the Commission, be added thereto. It appearing that the conduct of Mr. John King renders him unworthy of a seat on the bench of Justices, we propose that his name be omitted in the Commission of the peace for Onslow County, and that the names of John Brinson, John Starkey, Richard Jarrett, Reuben Grant and Jeremiah Fonville be inserted in the said Commission.

SAM ASHE, S. S.

Whereas there is not any power given by this Assembly to the Governor to issue any orders to such of the Continental Troops as are remaining in this State, or for the disposal of new recruits, or deserters who may come in or be apprehended.

Resolved therefore that the Governor be authorized and empowered, from time to time, during the recess of the General Assembly, to give such orders as he may think necessary for the removal, marching or disposition of the Continental Troops in this State or any of them; and in particular that he from time to time give such directions respecting the securing and disposal of deserters as he may judge necessary.

It is further Resolved that the Governor be empowered to appoint at his discretion, officers to fill up such vacancies as may happen in the Continental Army aforesaid, or the Troops of this State and he is requested to be particularly attentive that all such vacancies be filled by men of good characters, and if possible such as have Military merit to plead for their promotion.

We send you for your concurrence a resolve in favor of John Cook Esq.

SAM ASHE, S. S.

Mr. Speaker & Gentlemen of the House of Commons:

This House cannot concur with you in appointing General Officers of the Militia by resolve. It is in itself improper, even if the persons nominated by you had been previously proposed to this House, but in the present instance it takes away the right of choice from every Member of this House, for we must either concur or reject. We therefore propose that the General Officers be ballotted for at four of the clock in the afternoon, and this House have put in nomination the following gentlemen, to-wit, for the District of Salisbury, Griffith Rutherford Esquire ; for the District of Hillsborough John Butler Esquire ; for the District of Halifax Allen Jones Esquire ; for the District of Edenton Edward Vail Esquire ; for District of New Bern William Bryan Esq.; and for the District of Wilmington Alex. Lillington Esq. & Jno. Ashe Esq.

Ordered the following Message be sent to the Commons, viz. :

Mr. Speaker & Gentlemen of the House of Commons:

We are concerned that we cannot concur with you in the allowance you have given to the Secretary, for his services since last Congress. It appears to this House altogether inadequate

to the business he has done for the public, and insufficient to support the dignity of his office. We hope you will consider that he holds one of the first Offices in the State, and that his perquisites arising from the transacting of private business, must in the present situation of things be very trifling, in consideration whereof we have agreed to allow him one hundred pounds more, and desire your concurrence.

Resolved that elections shall be held for the Counties of Camden, Caswell, and Burke on the third Tuesday of September next for the election of one Member of Senate for each of the said Counties to represent them in General Assembly until the next general election, and that Mr. Speaker be requested to issue writs of election accordingly.

Received from the Commons the following message :

Mr. Speaker & Gentlemen of the Senate :

This House cannot concur with yours in making any alterations whatever in the list of Justices as they now stand, as they are of opinion that they are recommended agreeable to the express words of the Constitution. As to the gentlemen of merit that are left out of the list returned for Cumberland, we are informed by good authority that those gentlemen refused to qualify on the last Commission of the peace.

Mr. John King's conduct you say renders him unworthy of a seat on the Bench of Justice. We should suppose that if that gentleman's conduct was so bad as what you mention that the people he represents would not think him worthy a seat in the General Assembly, and therefore we connot consent to leave him out.

A. NASH,

SAM ASHE, S. S.

Rec'd from the Commons the following resolve, viz.:

Whereas the Delegates of the United States of America in Congress assembled have recommended it to the said Executive powers of the said States respectively to inquire into and superintend the conduct of the Officers of the Continental Army within their respecting Jurisdictions, and to remove, suspend or censure such of the said Officers as have behaved, or may behave unworthily; and also to transmit an account thereof with such complaints against and testimony as may be rec'd for and against them or any of them to Congress.

Resolved therefore that the Governor be authorized and requested to put the above recommendation of Congress into execution to the end that the Officers of the Continental Army now or lately in this State who have squandered or misspent or who may squander or misspend the public money or who have or may be found gaming or wasting time or who have behaved or may behave improperly, abusing the trust reposed in them in any manner whatsoever may be censured, suspended or removed from acting as officers in the Army for the future, and that others may be appointed to fill up vacancies, and it is further resolved that the Gov. be requested to proceed strictly in the execution of this resolve, as a few examples will probably work a thorough reformation in such of those Officers who have hitherto appeared dead to all sense of virtue, honour and love of their country.

Resolved, that in case of the death or removal of any of the Commissioners for fitting out the Armed Vessel belonging to this State, the Governor or Commander in Chief for the time being shall & he is hereby authorized and empowered to appoint another, or other Commissioners in the place & stead of the Commissioner or Commissioners so dying or removing as aforesaid.

Resolved that the present Justices, Sheriffs & Constables of the respective Counties in this State shall continue to act in their respective departments until the first court to be held after the first day of July next, unless where the Justices shall before that time qualify under the Act of Assembly for Establishing County Courts in this State.

Whereas there is not any power given by this Assembly to the Gov. to issue any orders to such of the Continental Troops as are

remaining in this State or for the disposition of new recruits or deserters who may come in or be apprehended.

Resolved therefore that the Gov. be authoized and impowered from time to time during the recess of the General Assembly to give such orders as he may think necessary for the removal, marching or disposition of the Continental Troops in this State or any of them, and in particular that he from time to time give such directions respecting the securing & disposal of deserters as he may judge necessary.

It is further resolved that the Governor be impowered to appoint at his discretion, officers to fill up such vacancies as may happen in the Continental Army aforesaid, or the Troops of this State and he is requested to be particularly attentive that all such vacancies be filled by men of good characters, and if possible such as have military merit to plead for their promotion.

The Senate taking into consideration the above resolve, concurred therewith.

Rec'd from the Commons the following Resolve, viz :

Resolved that it be recommended to the Secretary of the State to prepare with all possible expedition a copy of the Acts of Assembly passed at this present session for the Public Printers, and to this end that he be impowered to employ as many Clerks as may be necessary, and that for any Extraordinary expence attending the said service, the said Secretary shall be allowed in his account with the public at the next session of General Assembly.

A. NASH,
Speaker.

The House taking the same into consideration, concurred therewith.

Received from the Commons the following Resolve :

A. NASH,
Speaker.

The House considering the said Resolve concurred therewith.

William Bryan, Brigadier General for the District of New Berne, & John Ashe Brigadier General for the District of Wilmington.

The Senate taking the said report into consideration concurred therewith.

Ordered the estimates of this House be sent to the Commons for concurrence.

Rec'd from the Commons the following Message, viz. :

Mr. Speaker & Gentlemen of the Senate:

We observe in the estimate sent from your House to us for concurrence several allowances to Clerks & Door-keepers which we cannot concur with. We are of opinion that the services of the

Clerks of this House are equal to the services of your Clerks and we have allowed our Clerks seventy-five pounds each for all services in the gross, nine pounds, seventeen shilling and eight pence stationery, & engrossing bills excepted, which sum we are willing to allow your Clerks and no more. If you agree to those allowances please to alter your estimation agreeable thereto.

We cannot concur with any greater allowances to the Door-keeper than 40 dollars each exclusive of charges for candles, wood & attendance on Committee.

A. NASH,
Speaker.

Ordered the following Message be sent to the Commons, viz :

Mr. Speaker & Gentlemen of the House of Commons:

We estimated the stationery ware supplied by the Clerk of this House according to the quantity used and the price paid for it, and we inform you that the Committees have been supplied with paper from our Clerk. The allowance given to Mr. Greer is not greater than what has been customary for such services, and you cannot with propriety value the services of one man by what you may think a sufficient compensation for those of another. We think ourselves happy in having an experienced Clerk, who is capable of doing his duty without instructions from the Members, and it is no exaggeration of his merit, to suppose that his services are of four times the value of those of a common Door-keeper.

The allowance of daily wages to the Door-keepers was inserted by mistake, and therefore we agree to expunge it. You have allowed your Clerks as much as you think they deserve, allow us the same liberty. We ask no more as you are the proper judges in one instance, it is not altogether unreasonable to suppose that we are so in another. As we cannot agree to allow our Clerk a less sum than his services merit, we hope you will reconsider our estimate, and concur with it as it is now proposed.

SAM ASHE, S. S.

Rec'd from the Commons the following Message, :

Mr. Speaker & Gentlemen of the Senate:

We have received and considered your Message respecting a

further allowance for your Clerk, and altho' this House acknowledges the merits of Mr. Green as an able, experienced Clerk, yet we cannot agree to make him a larger allowance than our Clerks received and hope you will proceed to make out your estimate agreeable to our former Message on this head and the same will meet with the ready concurrence of this House.

A. NASH,
Speaker.

Ordered the following Message be sent to the Commons, viz:

Mr. Speaker & Gentlemen of the House of Commons:

You are at liberty to make an allowance to your own Officers, provided it shall not be altogether extravagant. This House do not think it would be proper to interfere with you, where you only are competent to judge; but we do not think ourselves at liberty to do injustice to our servants, merely because it would be agreeable to the House of Commons. We have concurred with your estimate of which you will no doubt avail yourselves; but that shall not prevent us from adhering strictly to an estimate which we think founded on the principles of equity.

SAM ASHE, S. S.

Received the following Message from the House of Commons :

Mr. Speaker & Gentlemen of the Senate :

His Excellency the Governor having submitted to the consideration of this house several Petitions praying that mercy may be extended to John Lewelling now under sentence of death in the Gaol of Edenton for the crime of high treason have fully considered the same and now send all the papers that they are possessed of on the subject for the examination at the Senate and suggest to them that it will be necessary to obtain the sense of the Commons

and Senate by a joint Ballot of both Houses by order lest possibility the two houses should divide in sentiment upon the subject which would produce a manifest inconvenience that is not provided for by the constitution or any act of Assembly and the House of Commons propose if the Senate approve of the mode that the balloting shall begin at two o'clock this afternoon and that every member who is of opinion that the sentence should be carried into execution should in his ballot signify the same as well as the day on which it should be had. This House beg leave to hint that in case it should be the opinion of the majority of both Houses that Lewilling should suffer that the state of Edenton Gaol renders it necessary that it should be done without delay and that Monday the twenty-fourth day of this month between the hours of ten and two o'clock be assigned for the execution.

Sir,

The General Assembly have considered the Petition and other papers laid before them by your Excellency relative to the case of John Lewelling now under sentence of death for high Treason and are of opinion that as it doth not appear that there were any mitigating circumstances certified by the Judge who sat on his trial the sentence should have been carried into execution without delay for which purpose the Constitution hath invested your Excellency with full powers and hath expressly declared that the Legislative, Executive and Judicial powers of Government ought to be forever separate and distinct from each other.

THURSDAY, 20th November, 1777.

Rec'd by way of the House of Commons the following message from His Excellency, the Governor, to-wit :

To the Honorable the General Assembly.

Gentlemen :

In answer to your message relative to the Captain of the Artillery Company in this State I acknowledge that I knew the General Assembly had declared Capt. John Vance should be broke and discharged from the command of the said Company, but that they had declared him unworthy of the Command, I do not recollect. If it was so entered in their Journals it has escaped my Observation.

A gentleman of your honorable body informed me Capt. Vance was broke and mentioned a gentleman whom he suggested as worthy of that command, I thought him so myself, wrote to him and informed him of the vacancy and desired to know if he would accept of the appointment, he in answer signified his dissent. No other person applied except Capt. Vance, who produced a paper purporting to be a petition signed by every man of the Artillery Company except two, desiring he might be reinstated in the command. Previous to this being presented, towit :

I received a letter from Mr. Bradley the Captain Lieutenant of the said company, informing of sundry difficulties under which

the said company laboured and desiring leave to resign his commission, these papers were handed me upwards of a month after the rising of the General Assembly, when I laid them before the Council of State and informed that board that no other application had been made, and they thereupon advised the reinstating of Capt. Vance in his command and in pursuance thereof I issued a commission in the same form as other Commissions issue in the vacation, where the right of appointing is in the General Assembly. If the gentlemen of your honorable body had condescended to have looked into the Journals of the Council, and the files of papers sent them, I flatter myself you would have found the resolve of the Council respecting this appointment and also the petition and resignation above alluded to. I cannot quit this subject without taking notice to your honorable body that in this instance I conceive I have conducted myself agreeable to the constitution in pursuing the advice of the Council of State, and although I hope to be able to give sufficient reason for my conduct in every part of my public transaction, yet I cannot help saying that the manner in which I am at present called upon, especially when you have the papers before you which would illucidate this matter, to give my reasons for a conduct in which you must know I am supported by the advice of the Council, and which it was my duty to comply, is rather according to my conception, improper; however as I wish to give every information and satisfaction within the compass of my power to your Honorable Body, I have now answered your message in the fullest manner and hope it will meet your approbation.

RICHARD CASWELL.

Ordered the above lie for further consideration.

Upon the complaint of William Pile, master of the vessel loaded & now ready to proceed to sea, that John White, Esquire, Colonel of a Continental Battalion raised by the State of Georgia, had enlisted one of his seamen named James Rawling, this House summoned the Complainant and Colonel White to appear, and upon hearing the allegations of the parties do find, that it doth not appear that the said Rawling was actually enlisted but that he went with Col. White's waggon on a promise that he should be promoted to the office of Mate in a Continental ship; and that there is no reason to believe that he would have deserted the vessel to which he belonged had he not received extraordinary encouragement and as the taking of seamen from the merchants service will greatly distress the trade of this State, and render the necessaries of life still more difficult to be procured; therefore resolved that Col. White his officers or soldiers do deliver up the said James Rawling to the said William Pile or his Order, and all Magistrates and officers are hereby required to be aiding and assisting in securing the said James Rawling so as to oblige him to return to his duty.

Jones, Mr. Coor, and Mr. Hart be a Committee to act in conjunction with the gentlemen appointed by the House of Commons to report what Bills of public and general concern it will be necessary to prepare and bring in this Session of Assembly. Previous to entering into the above Resolve, this House Received from the House of Commons a Resolve of that House appointing a Committee for the above mentioned purpose.

Received from the House of Commons the following message together with the report of the Committee appointed to inquire into the conduct of the Officers of the 10th regiment &c., and concurred with by this House.

Mr. Speaker & Gentlemen of the Senate :

We herewith send you the report of the Committee of inquiry into the conduct of Col. Abraham Sheppard and the other Officers of the 10th regiment and the reasons of delay of the march of said regiment to join Gen. Washington &c., concurred with by this House.

A. NASH, S. C.

The Report of the Committee of inquiry into the conduct of Col. Abraham Sheppard and the other Officers of the tenth regiment and the reasons of delay of the march of said regiment to join Gen. Washington &c.

Mr. Archibald Maclaine, Chairman (Senate Committee), Mr. Willie Jones Chairman (House Committee).

Your Committee having obtained all the information that could be had at present, and having duly considered the same do find by a resolve of the General Assembly, bearing date 17th April, 1777, that Abraham Sheppard was appointed to the commd. of a regiment (now the tenth) with certain powers and under certain restrictions, that such soldiers as should be inlisted into the said regiment were to be under continental regulations—and that the commissary of stores was directed to supply every soldier so inlisted with a suit of clothes as directed by the Continental Congress.

That his Excellency the Governor in consequence of the aforesaid resolve and the directions of the General Assembly issued recruiting instructions to Colo. Abraham Sheppard, dated the 9th May, 1777. By the 13 article of which the said Abraham Sheppard was enjoined to make Kingston the rendezvous of his regiment, to make return of his success in recruiting on the first day of July then next and thereafter on the tenth day of every month or oftener if requested and to hold himself in readiness with the officers and soldiers under his command to march at the shortest notice to join the continental army, that the Council of State on proof made to them that Colo. Sheppard and the Officers under his command had raised 328 privates, previous to the first day of July last recommend to his Excellency (by resolve of Aug. 5, 1777,) to grant commissions to such Officers as were necessary to complete the Battalion, that the Continental Congress by resolve dated June 17th, 1777, admitted Colo. Sheppard's Battalion on the Continental Establishment on his compliance with the terms stipulated with the State of North Carolina, and directed that as soon as 300 rank and file should be inlisted, Colo. Sheppard should march his Battalion with all possible expedition to join Genl. Washington, only leaving proper officers to recruit, and that in consequence of the above his Excellency issued Continental Commissions to Colo. Sheppard and the officers under his command as many as were necessary to complete the Battalion. But for various reasons which may appear by his Excellency's letter to the Committee defered ordering the said Battalion to the northward until the 15th day of Sept. when his Excellency issued orders directing Col. Sheppard to march the Battalion under his command, and the Artillery Company under Capt. John Vance which

had also been received on the Continental Establishment from Kingston on the 25th day September with the greatest expedition to Richmond town in Virginia to remain till he had received further orders, directing a speedy return of such articles as he would actually stand in need of on his march that his Excellency might make the necessary provisions, that the said Battalion and Artillery Company marched accordingly on the 25th of September and that his Excellency some few days after sent further orders to Col. Sheppard to proceed immediately to headquarters and join Gen. Washington's army with utmost expedition. That Col. Sheppard arrived with the said Battalion and Artillery Company on the north side of Roanoke in Northampton County on the 6th Oct. and the said Sheppard after staying there a few days left the Battalion, and returned to Dobbs County, suggesting for reason in his letter of 14th October to his Excellency that the Commissary of stores was not at Halifax and that Col. Long had informed him there were neither shoes, breeches, blankets nor stockings for the soldiers, and that his Excellency saw Col. Sheppard soon after and advised him to return and endeavour to proceed on his march.

Your Committee further find by return made and information obtained from Mr. Craik Commissary of stores that cloathing &c. to a considerable amount were delivered to the tenth Battalion previous to the 7th of October and that Col. Long on the said 7th October, Mr. Craik then being absent from Halifax, using his endeavors to purchase continental stores delivered the remainder of the clothing &c then on hand—that after this there was a considerable difficiency of Hats, Breeches, Shoes, Blankets and Stockings, quo-ad the said tenth Battalion, but that he Mr. Craik had furnished the artillery company with Coats, Shirts, Spater-dashes, breeches and 2 pair of shoes to a man (lacking 12 pair) within twelve months past and had supplied them with Eight Blankets only they having never applied for any more, tho' there were Blankets on hand, untill they reached Kingston; that he had inferred from their conduct that they did not want Blankets, but supplied themselves and meant to make a claim therefor, but that he did not know whether they had done so or not. Mr. Craik also informed the Committee that he had now provided a sufficient quantity of shoes for the said tenth Battalion and Artillery company—Your Committee further find that Col. Sheppard did repair from Dobbs

County to his Battalion in Northampton County but instead of proceeding on his March soon returned again to his Excellency the Governor with a Memorial from his Officers and the Officers of the Artillery Company to which your Committee beg leave to refer. Upon the whole it appears to your Committee that his Excellency the Governor has by every possible means in his power encouraged the recruiting of the tenth Battalion, that he has endeavored to excite Col. Sheppard and his Officers to a discharge of their duty by urging them on every principle of honor, love of liberty and of their Country that he Ordered the said Colonel Sheppard to march as expeditiously as possible to headquarters, to join General Washington, and at the time of year when these Orders were given and received the weather was so moderate that the said Colonel Sheppard with the Troops under his Command might have marched without much inconvenience—from whence your Committees conceive that Col. Sheppard and the Officers under his command have disobeyed orders on frivolous and insufficient reasons, that their conduct casts a shade not only on themselves but in some measure draws a reflection on this State and that to do away this, the only proper way is to behave like soldiers for the future. Wherefore that they may have an opportunity of so doing, Resolved that his Excellency the Governor be desired to Order Colonel Sheppard with the Tenth Battalion and the Artillery Company immediately on to the Northward.

Resolved also that the Commanding Officer of the said Battalion shall return to his excellency a list of the names of such Officers and Soldiers as shall refuse or decline marching according to orders, which list shall be published in the newspapers of this and the neighboring State, and that such Officers and Soldiers shall for the future be deemed deserters of the cause of Liberty and be held unworthy to hold any office or place of trust or profit in this State, and shall be incapable of bringing suits or of taking by purchase or otherwise, or disposing of any lands, tenements or hereditaments within the same and shall and may be treated as deserters wherever they may be found. It appearing to your Committee that Benjamin Sheppard a person strongly suspected of being concerned in passing counterfeit money has been appointed pay master to the tenth Battalion and that Alexander Outlaw who has long laboured under a bad character for practices of the like nature

and was under recognizance to have appeared at the last court of Oyer at Wilmington which recognizance he has forfeited by his non-appearance has been appointed quarter master to the said regiment, Resolve that the said Benjamin Sheppard and Alexander Outlaw be declared unworthy of holding the said offices. Your Committee being informed by a gentleman called before them that he had purchased from one of the officers of the tenth Battalion a certificate to exempt him from militia duty for which he paid him a valuable consideration but that he did not enlist any person himself and being further informed that other certificates had been granted in the same manner.

Resolved, as the opinion of your committee that such certificates do not come within the meaning of the resolves of the General Assembly which require that the militia men exempted from duty should themselves make the enlistment and therefore that no militia man shall be exempted from duty by virtue of any certificate fraudulently granted. Your Committee also inquired into the state of the continental stores now on hand but could not obtain a particular account nor can it be had until the commissary returns to Newbern, however from the information laid before them respecting the manner of keeping the stores, your committee apprehend there is danger of the gun powder being lost or spoiled for that the houses wherein it is lodged in different parts of the State are very improper and being in places very distant from one another the commissary cannot pay the necessary attention to the whole ; your committee are therefore of opinion that a magazine should be built for the reception of the bulk of military stores and that the commissary be empowered to employ certain persons paying a reasonable sum for services performed to receive and deliver out in his absence such detached stores as may be necessarily lodged elsewhere. Your committee were informed by the commissary that blankets might be purchased at Charlestown.

ARCHIBALD MACLAINE,
Chairman.

A. NASH, S. C.

Mr. Maclaine laid before the House a memorial of Robert Alexander of Tryon County, shewing that by resolve of Congress he was appointed with William Graham to purchase arms for the use of public, the said William Graham refusing to enter into bond agreeable to the said resolve, the whole charge of purchasing arms devolved him, and in compliance thereof has filed his bond in the Secretary's Office with sufficient securities, and had proceeded to purchase arms to a considerable amount, and that a sum of money has been delivered to William Graham for that purpose but instead of delivering it to him he had paid a considerable part of it into the Treasury to the amount of one hundred and forty-four pounds.

Resolved therefore that the Treasurers or either of them pay into the hands of the said Alexander the above sum of one hundred and forty-four pounds and that they be allowed the same in the settling of their accounts with the public.

Gen. Jones and Mr. Hunt dissented from the above resolve and moved for leave to enter their reasons for dissenting against the same which were as follows, to-wit:

Because Memorialist has never yet accounted with the public agreeable to his duty, for the money he has received.

Because the sum allowed is near one hundred pounds more than

what the Memorialist pretends to have expended for the service of the State.

Because it hath not appeared by anything laid before the House (except the Commissioner's own Memorial) that any of the money heretofore paid the Memorialist hath been laid out in the requisite service.

To the Honorable the General Assembly, Gentlemen:

I have in pursuance of your request, issued Orders to Col. Abraham Sheppard, to proceed with his Regiment and Artillery Company immediately on to the Northward to join Gen'l. Washington and have filled up Commissions for the Officers of the Artillery Company. I am informed that on the 1st of December there will be two months pay due to those Troops and that there is at least a probability of some inconveniences happening in case men are marched before they are paid off, therefore as the Regimental pay master is discharged, I submit to you the expediency of appointing another or directing the deputy pay master general in this State to attend and pay the arrears due the said Troops at

the time aforesaid. I beg leave to inform your Honorable Body that Mr. Thomas Williams Commissary to the aforesaid Regiment is waiting to have his public account settled and hope his business will be expedited as any delay in that particular may have a tendency to retard the march of said Troops. Mr. Williams at the time he accepted this appointment suggested that it would be impossible for him to furnish provisions to the Troops for the sum formerly allowed to Commissaries owing to the high price every article of provision had risen to, on which I assured him when he came to lay his accounts before the General Assembly, a reasonable allowance would be made him, I therefore take the liberty of recommending his case to your Honorable body as a singular one he not being before a Commissary or having purchased provisions previous to his appointment.

RICHARD CASWELL.

penny, per ration. The House taking the said report into consideration, concurred therewith.

Mr. Speaker & Gentlemen of the Senate :

This House cannot adopt the alteration proposed by you as an amendment of this Message to your House relative to any seizure which have been or may hereafter be made of any vessels or cargoes under any supposed Act of Trade in force in this State but beg leave to propose that the following be declared as the sense of both houses.

That there is now no Law in force in this State that authorizes any collector or Naval Officer within the same to make seizure of any vessel or cargo whatsoever.

This House are desirous to adopt this mode of expression rather than that which is proposed by you as the latter declares the incapacity of the Naval Officers and collector in a particular case and may by some possible construction imply a right of seizure by collectors or Naval Officers in instances by you not specially described.

GENTLEMEN :

In consequence of your Resolve of this day respecting Sam Cornell and Jno. London I sent Maj. Jno. Tillman on board the brigantine Edwards with a letter addressed to the said Samuel Cornell and Jno. London of which I send you a copy. Major Tillman is returned and informs that he delivered the letter as directed, that they produced a paper dated at New York with the names of General Clinton and Commodore Hotham subscribed thereto permitting the said Samuel Cornell and Jno London to pass to North Carolina, settle their affairs there and return with their property, effects and requiring all officers civil and military to take notice thereof.

I request you will be pleased to take the matter into consideration and advise the necessary means to be pursued with the said Samuel Cornell and Jno. London and the vessel in which they came, which is now in this harbour as it plainly appears from their own shewing they consider themselves subjects of the king of Great Britain.

Mr. Charles McLeane moved for leave to enter his dissent from the report of the Committee of Claims upon re-examining the acts of William Graham and the concurrence of the House thereupon ; his reasons were as follows, to-wit :

Because, it appears by the certificates of the Horse Master General filed with the pay Bill that there was more money drawn for Ambrose Foster and Francis Nixon for their past services than they received.

Because, the said William Graham refused to pay the said persons their full claim when demanded saying he had paid all the money drawn by them for said service.

And because, the money reported to be paid into the Treasury was deducted out of the claims of the said Ambrose Foster and Francis Nixon which it appeared they were entitled to by the horse Master's return.

S. A.

Report of the Committee appointed to examine the charges by James Stuart and Andrew Greer, Commissioners of the Militia, stationed in Washington District for expenses of waggoning provisions for said Militia, is as follows :

That it appears to your Committee that the said James Stuart paid and has obligated himself to pay to sundry persons for waggons hire the sum of thirteen hundred and ninety-two pounds, three shillings and seven and one-half pence, allowing to each waggon one shilling & eight pence per mile; each waggon carrying 1600 weight, it also appears to your Committee that the said allowance and loads for waggons was the common rule of hiring waggons in that part of the State and that they could not be had at the time the service was performed on any other terms. It further appeared to your Committee by vouchers produced by the above mentioned Andrew Greer that the sum of seven hundred and fifty-four pounds including waggon masters pay for Robert Lucas, is due for waggoning provisions for the Militia aforesaid during the time of the said Greer's acting as Commissary which sum of £75 is exclusive of a charge which Mr. Greer has for a waggon belonging to himself.

Your Committee are of opinion that the sums aforementioned charged for waggon hire ought to be allowed and they submit to the Assembly whether, in that case the said Commissaries ought to be allowed thirteen pence per ration or a smaller sum.

Chairman.

Endorsed in the House of Commons, 18 Dec., 1777, read the third time and passed.

Ordered the following Message be sent to the Commons:

Mr. Speaker & Gentlemen of the House of Commons:

We propose the following amendments to the Bill for establishing Officers for receiving entries for claims for land in the several Counties in this State for ascertaining the method of obtaining titles to the same and for other purposes.

In the Clause marked "A," Section 3rd, we propose after the word "seventy-six" that the word "*and recorded in the Secretary's Office*" be inserted and that the remaining part of the Clause be *deled*, that the 5th, 7th & 25th Section in the Bill be *deled*, that in Section 18th that the words and "*his securities*" be inserted after the word "delinquent with respect to the Secretary."

We not only consider to what sum that Officer's fees may amount but what will be adequate to the services which he must perform, he will certainly for some time receive considerable sums of money but his services will be proportionably great and consequently he must be at a very great expense in employing assistants and clerks. We consider further that the fee we give him is to be permanent and must continue when the business will be trifling compared to what may be expected for the first year. We propose that the 21, 22, 23 & 24 Sections marked "B. C. D. E." being amendments of this House be *deled* because we cannot conceive that the Legislature has any authority by an act of the General Assembly to take away that which is claimed to be the property of private persons.

We are well assured that those who have settled vacant lands since the late Lord Granville's death and those who have purchased settlements and improvements made by them would have had the preference of all such lands if the office had been opened previous to the late resolution. Do not let us violate the constitution by assuming a judicial power in taking away the private property of individuals, give them reason to complain that they want the protection in a free State which was afforded them under the administration of a tyrant. Many purchases from the Indians we know to have been fairly made for valuable considerations, some of them in compensation for debts for which no other satisfaction could be obtained, the least we can do at present is to let those claims lie in abeyance until they can be adjusted in a legal manner. If it should be thought that the State is injured by such large purchases we have taken care by our constitution to prevent them for the future and it will be easy to point out a mode for inquiring into the titles. The claimants under these purchases are willing to submit their titles to a trial at law. We presume that the argument urged on this occasion: that if those lands are reserved the State will be defrauded of large sums of money which would necessarily arise from the sale of them is of no weight. The question will be in whom is the title. The public coffers ought to be filled from the State at large, not from the private property of individuals. The scheme of agrarian law is altogether chimerical in an enlightened age and a commercial country and we have the satisfaction on the last reading of the Bill to find that you agree with us in that particular, and we propose likewise the following amendments, and in order to establish the credit of the continental currency and the currency of this State emitted by the late Congress thereof. "Be it enacted by the authority aforesaid that no entry taker shall receive for the use of this State any other sort of money for the entry of lands than continental currency, Bills of credit, or the dollar Bills emitted at the Congress held at Hillsborough and Halifax." If you agree to these amendments you will send two of your members to see it done.

A. NASH, S. C.

Report of the Committee appointed to re examine the accounts of Col. Henry Irwin passed at Halifax in April, 1776.

Report as follows: That it appears to them from the accounts passed at Halifax, and from other testimony, that there is an overcharge in the rations of Capt. Johnston's and Horne's Companies on the expedition to Moore's Creek, of forty-one pounds, nineteen shillings and six pence, and an error in extending the time of pay in the said account of nine pounds, eighteen shillings and five pence, and an overcharge of one pound, ten shillings for getting guns, said to be paid for by Capt. Johnston. It also further appears to your Committee that there is an overcharge in the rations of Capt. Johnston's, Horn's and Hart's Companies on the

expedition to Wilmington, and for getting guns and for one broke, for an error in extending the price of barrels for salt allowed for, and for pork and flour kept by Col. H. Irwin of fifty-eight pounds, fourteen shillings, the said several sums amounting in the whole to one hundred and twelve pounds, one shilling and eleven pence, which appears to your Committee to be due from Col. Irwin to the public and ought, if received by them, to be refunded by his Executors.

Mr. Maclaine from the Committee appointed to take into consideration sundry resolves, &c., from Congress and to prepare and bring in a Bill for confiscating the property of persons who have forfeited the protection of this State, reported as follows:

That a tax of two pence in the pound on all taxable property in this State ought to be laid for the year 1775 and that the same is as near as the circumstances of the State will permit a compliance with the recommendation of Congress relative to raising money.

That the act for establishing a Loan Office in this State is as near a compliance with the resolution of Congress respecting loans as is at present expedient.

That it is not expedient for this State to appoint Commissioners to meet the Commissioners from other States to regulate prices as it will be impossible to carry any such regulations into execution.

That a Commissioner should be appointed in every County to purchase in the most expeditious manner and for the lowest prices he can all the stockings, linens, & woolens which can be procured, to be delivered to the Clothier General or his order and charged to the United States.

That it is expedient to pass a law for confiscating the estates of all persons who have withdrawn themselves from this or any of the United States during the present war and all who are absent from the same with our enemys and not under restraints or disabilities which rendered their return impossible unless such persons or any of them shall within a certain time return into this State and give satisfactory reasons why they should be received as citizens thereof and restored to their property and in such cases no Confiscation to take place with respect to the persons so received.

That the first, second, third, eighth and twelfth articles, the second and third sections of the fourth and the last section of the ninth articles of the Confederation recommended by Congress ought to be immediately ratified and the delegates for this State ought to be instructed and empowered accordingly and that the remaining clauses, articles and sections thereof containing matters highly important and interesting to the future people of this State and involving what may very materially affect the internal interests and Sovereign Independence thereof and not being immediately essential to the success of the present war ought not to be ratified until there shall be full time and leisure for materially and deliberately considering the same until upon such mature and deliberate consideration the same shall be approved.

Ordered the following Message be sent to the House of Commons:

Mr. Speaker & Gentlemen of the House of Commons:

Owing to an omission in copying a Message relative to the land Bill it has passed contrary to the sense of this House.

In order to convince your House of the fact we send you the original draught of that Message by which you will perceive that we propose to allow the Secretary a fee of ten shillings and that section the tenth is inserted for 18th and that the word secretaries is inserted of securities. The reason given in our Message for giving the secretary a fee of ten shillings shows that something relative to that must have gone before. To correct this mistake we propose that the fee of seven shillings and six pence be given to the secretary as in our opinion five shillings is inadequate to the service he is obliged to perform. Should not your House agree to this, we propose a free Conference on the subject immediately in the conference room.

This House beg leave to hint that, in case it should be the opinion of the majority of both Houses that Lewelling should suffer, that the state of Edenton gaol renders it necessary that it should be done without delay;

and Commander-in-Chief, &c., &c.,

SIR,

The General Assembly have considered the petition and other papers laid before them by your Excellency relative to the case of John Lewelling, now under sentence of death for high treason, and

are of opinion that as it doth not appear that there were mitigating circumstances certified by the Judge who presided at his trial, the sentence should have been carried into execution without delay, for which purpose the Constitution hath invested your Excellency with full powers, and hath expressly declared that the Legislative, Judicial and Executive powers of Government ought to be forever separate and distinct from each other.

A. NASH, S. C.

This House having received authentick information, that in the battle fought at Germantown on the fourth day of October last between the army of the United States under the command of General Washington and that of the King of Great Britain under

the command of General Howe, Francis Nash, Esquire, Brigadier General in the Continental Army, who was appointed to that office at the special instance of this State and whose command was more immediately over the troops raised in this State as their quota of the Continental Army, at the head of his Brigade bravely maintaining the post allotted him by his General, received a wound from a cannon ball and after languishing some days, during which he supported the extreme torture of it with the firmness of a hero and the composure of a christian, he closed his valuable life.

The testimony to such distinguished worth, that this State by the unanimous voice of its representatives in General Assembly makes, may exhibit to the world the grateful sense they entertain of the signal services rendered by this brave officer, whom they glory to have called their own, during the whole time he was in the Continental Army, but more especially on that day when he sealed with his blood his attachment to his country and gave his life an offering to purchase freedom and independence for his posterity. That the heroick fortitude which marked his military character, and the integrity and honor which were the uniform attendants of his publick and private life; that the humanity and cordial benevolence of heart which to those under his command smoothed the rugged path of duty, and softened the rigour of command, which taught the soldier to look to him as to his friend, and induced an obedience that was more perfect as it was voluntary; that these exalted publick and private virtues may stand indelibly recorded in the breasts of the inhabitants of this State, and may be held forth as patterns for the imitation of the present age and posterity.

This House have unanimously resolved that three hundred pounds current money of the State of North Carolina shall be paid out of the treasury of this State to Mr. Hooper, Mr. Jones and Mr. Avery, who are appointed a Committee by this House to act in conjucon with a Committee to be appointed of the Senate to purchase a marble monument to be erected to the memory of the deceased General Nash in such publick place as the widow and brother of the deceased shall think proper; and that the said Committee shall prepare an English inscription for the said monument descriptive of the virtues of the deceased and which may tend to answer the good purposes intended by this measure.

Endorsed in the Senate 19 November, 1777.

SAM ASHE, S. S.

Received from his Excellency the Governor, the following Message :

To the Honorable, the General Assembly,
Gentlemen :

In answer to your Message relative to the Captain of the Artillery Company in this State I acknowledge that I knew the Genl. Assembly had declared Capt. John Vance, should be broke and discharged from the command of the said Company, but that they had declared him unworthy of the command, I do not recollect. If it was so entered in their Journals, it has escaped my observation. A gentleman of your Honorable Body informed me Capt. Vance, was broke and mentioned a gentleman whom he suggested as worthy of that command, I thought him so myself, wrote to him and informed him of the vacancy and desired to know if he would accept of the appointment. He in answer signified his dissent. No other person applied except Capt. Vance, who produced a paper purporting a petition signed by every man of the Artillery Company, except two, desiring he might be reinstated in the command. Previous to this being presented to me I received a letter from Mr. Bradly, the Capt. Lieutenant of the said Company informing of sundry difficulties under which the said Company labored and desired leave to resign his commission.

These papers were handed me upwards of a month after the rising of the General Assembly when I laid them before the Council of State and informed that Board that no other application had been made and they thereupon advised the reinstating Capt. Vance, in his command and in pursuance thereof I issued a commission in the same form as other commissions issue in the vacation when the right of appointing is in the General Assembly.

If the gentlemen of your Honorable Body had condescended to have looked over the Journals of the Council and the files of papers sent them, I flatter myself they would have found the Resolve of the Council respecting this appointment and also the petition and resignation above alluded to. I cannot quit this subject without taking notice to your Honorable Body, that in this instance I conceive I have conducted myself agreeable to the Constitution in pursuing the advice of the Council of State; and although I hope to be able to give sufficient reason for my conduct in every part of my public transaction, I cannot help saying that the manner in

which I am at present called upon, especially when you have the papers before you which would illucidate this matter, to give my reasons for a conduct in which you must know I am supported by the advice of the Council and with which it was my duty to comply, is rather, according to my conception, improper, however, as I wish to give every information and satisfaction within the compass of my power to your Honorable Body, I have now answered your Message in the fullest manner and hope it will meet your approbation.

That the same be signified to the Senate.

A. NASH, S. C.

Whereas, in the present critical situation of the American Continent it would be dishonorable to this State, highly injurious to the public service and may possibly involve ill consequences of the most serious nature to America at large, that the Officers of the Troops raised as the quota of this State for the Continental Army should quit their posts and resign the several offices to which they have been appointed; and the Assembly from the representation of their delegates having reason to apprehend that many resignations may take place unless some measures are immediately adopted, to prevent the same.

This House, therefore, do in the most positive and express manner resolve and declare that all and every Officer of the Troops raised in the State of North Carolina who shall, unless for good and sufficient reasons certified to the Governor, to be such by the Commander in Chief of the Continental Army, resign his commission at this critical period shall be held and deemed incapable of holding hereafter any office, civil or military, in the gift of this State; and it is further resolved that a copy of this be forwarded by His Excellency the Governor to His Excellency General Washington and that it also be published in the newspapers of this and the neighboring States.

Report of the Committee of Inquiry into the conduct of Colo. Abraham Sheppard and the officers of the Tenth Regiment and the reasons of delay of the march of said Regiment to join Genl. Washington, &c., &c., Mr. Maclaine, Chairman; Mr. Jones, Clerk.

Your Committee having obtained all the information that could be had at present, and having duly considered the same, do find by a resolve of the General Assembly, bearing date 17th of April, 1777, that Abraham Sheppard was appointed to the command of a Regiment (now the tenth) with certain powers and under certain restrictions, that such soldiers as should be enlisted into the said Regiment were to be under continental regulations ; and that the Commissary of Stores was directed to supply every soldier so enlisted with a suit of clothes, as directed by the Continental Congress. That His Excellency, the Governor, in consequence of the aforesaid resolve and the directions of the General Assembly, issued recruiting instructions to Colo. Abraham Sheppard, dated the 9th of May, 1777, by the 13th Article of which the said Abraham Sheppard was enjoined to make Kingston the rendezvous of his Regiment and to make return of his success in recruiting on the first day of July this next, and thereafter on the tenth day of every month, or oftener if required, and to hold himself in readiness, with the officers and soldiers under his command, to march, at the shortest notice, to join the Continental Army. That the Council of State, on proof made to them that Colo. Sheppard and the officers under his command had raised 328 privates previous to the first day of July last, recommended to his Excellency (by resolve of 5th of Aug., 1777,) to grant commissions to such officers as were necessary to complete the Battalion. That the Continental Congress, by resolve dated June 17th, 1777, admitted Colo. Sheppard's Battalion of the Continental Establishment, on his compliance with the terms stipulated with the State of North Carolina and directed that as soon as 300 rank and file should be enlisted, Colo. Sheppard should march his Battalion with all possible expedition to join Genl. Washington, only leaving proper officers to recruit ; and that, in consequence of the above, His Excellency issued Continental Commissions to Colo. Sheppard and the officers under his command, as many as were necessary to complete the Battalion, but for various reasons, which may appear by His Excellency's letter to the Committee, deferred ordering the said Battalion to the northward until the 15th day of September, when His Excellency issued orders directing Colo. Sheppard to march the Battalion under his command and the Artillery Company under Capt. John Vance (which had also been received on the

Continental Establishment) from Kingston on the 25th day of September with the greatest expedition to Richmond town in Virginia, there to remain until he received further orders, directing a speedy return of such articles as he would actually stand in need of on his march, that His Excellency might make the necessary provision. That the said Battalion and Artillery Company marched accordingly on the 25th of September, and that His Excellency, some few days after, sent further orders to Colo. Sheppard to proceed immediately to headquarters and join Genl. Washington's Army with the utmost expedition. That Colo. Sheppard arrived with the said Battalion and Artillery Company on the north side of Roanoke, in Northampton County, on the 6th of October; and the said Sheppard, after staying there a few days, left the Battalion and returned to Dobbs County, suggesting for reasons, in his letter of the 14th October, to His Excellency, that the Commissary of Stores was not at Halifax, and that Colo. Long had informed him there were neither shoes, breeches, blankets nor stockings for the soldiers, and that His Excellency saw Col. Sheppard soon after, and advised him to return and endeavor to proceed on his march.

Your Committee further find, by return made and information obtained from Mr. Craike Commissary of stores that cloathing &c., to a considerable amount were delivered to the tenth battalion previous to the 7th of October, and that Colo. Long on the said 7th of October, (Mr. Craike being then absent from Halifax, using his endeavors to purchase continental stores) delivered the remaining &c then on hand, that after this there was a considerable deficiency of hats, breeches, shoes, blankets and stockings, *quoad* the said tenth battalion; but that he, Mr. Craike had furnished the Artillery company with coats, shirts, spatteradashes, breeches and two pair of shoes to a man, lacking 12 pair within 12 months past and had supplied them with eight blankets only they having never applied for any more though there were Blankets on hand, until they reached Kingston, that he had inferred from their conduct, they did not want blankets, but had supplied themselves and wanted to make a claim therefor, but that he did not know whether they had done so or not. Mr. Craike also informed the Committee that he had now provided a sufficient quantity of shoes for the said tenth Battalion and Artillery company. Your Committee further

find that Col. Sheppard did repair from Dobbs County to his Battalion in Northampton County, but instead of proceeding on his march, soon returned again to his Excellency the Governor, with a memorial from his officers and the officers of the Artillery, to which your Committee beg leave to refer. Upon the whole it appears to your Committee that his Excellency the Governor, has by every possible means in his power encouraged the recruiting of the tenth Battalion; that he has endeavored to excite Col. Sheppard and his officers to a discharge of their duty, by urging them on every principle of honor, love of liberty and of their Country; that he ordered the said Col. Sheppard to march, as expeditiously as possible, to head quarters to join General Washington; and that at the time of year, when these orders were given and received, the weather was so moderate that the said Col. Sheppard with the troops under his command might have marched without much inconvenience from whence your Committee conceive that Col. Sheppard and the officers under his command have disobeyed orders on frivolous and insufficient reasons; that their conduct casts a shade not only on themselves but in some measure draws a reflection on this State, and that to do away with this the only proper way is to behave like soldiers in the future, therefore that they may have an opportunity of so doing, resolved that his Excellency the Governor, be desired to order Col. Sheppard, with the tenth Battalion and the Artillery company immediately on to thenorthward.

Resolved also, That the commanding officer of the said Battalion shall return to his Excellency a list of the names of such officers and soldiers as shall refuse or decline marching according to order, which list shall be published in the newspapers of this and the neighboring States; and that such officers and soldiers shall for the future be deemed deserters of the cause of Liberty, and be held unworthy to hold any office or place of trust or profit in this State, and shall be incapable of bringing suits, or taking by purchase, or otherwise, or disposing of any messuages, lands, tenements, or hereditaments within the same, and shall and may be treated as deserters wheresoever they may be found.

It appearing to your Committee that Benjamin Sheppard, a person strongly suspected of being concerned in passing counterfeit money, has been appointed paymaster to the tenth Battalion, and that Alexander Outlaw, who has long laboured under a bad char-

acter, for practices of the like nature, and was under recognizance to have appeared at the last Court of Oyer at Wilmington (which recognizance he has forfeited by his non-appearance), has been appointed Quartermaster to the said Regiment.

Resolved, that the said Benjamin Sheppard and Alexander Outlaw be declared unworthy of holding the said offices.

Your Committee being informed, by a gentleman called before them, that he had purchased from one of the officers of the tenth Battalion, a certificate to exempt him from militia duty, for which he paid a valuable consideration, but that he did not enlist any person himself, and being further informed that other certificates had been granted in the same manner.

Resolved, as the opinion of your Committee, that such certificates do not come within the meaning of the resolves of the General Assembly which required that the militia men exempted from duty should themselves make the inlistment, and therefore that no militia man should be exempted from duty by virtue of any certificate fraudulently granted.

Your Committee also inquired into the state of the Continental stores now on hand, but could not obtain a particular account, nor can it be had until the Commissary's return to Newbern; however from the information laid before them respecting the manner of keeping the stores, your Committee apprehend there is danger of the gunpowder being lost or spoiled, for that the houses wherein it is lodged in differents parts of the State are very improper, and being in places very distant from one another, the Commissary cannot pay the necessary attention to the whole. Your Committee are therefore of opinion that a magazine should be built for the reception of the bulk of the military stores, and that the Commissary be impowered to employ certain persons, paying a reasonable sum for services performed, to receive and deliver out in his absence such detached stores as may be necessarily lodged elsewhere.

Your Committee were informed by the Commissary that blankets might be purchased in Charlestown.

A. MACLAINE,
Chairman.

The House met according to adjournment.

Resolved that it is the opinion of this House that it be recommended to the Committee of Claims to allow the Adjutants of the several Counties in this State at the rate of seven shillings and six pence per day for each day when on actual service.

Received from His Excellency the Governor the following Message:

To the Honorable the General Assembly:

GENTLEMEN:

I have received by the hands of the assistant Clerk of the House of Commons, a resolve of your honorable body, recommending to me to supercede Capt. John Vance immediately, in his command of the Artillery Company. I wish to comply with your resolutions in every instance in which I think the Constitution will support me; in the present case, as the General Assembly is sitting I apprehend the appointment of the officer to command the Artillery Company is in that body, and of course the other officers under his command. Had the General Assembly filled the vacancy by such appointment on their declaring Capt. Vance should be broke last Session, 'tis probable there would not have been occasion for the late inquiry respecting him.

If your Honorable Body will be pleased to appoint the officers in the Artillery Company, I will without delay furnish them with commissions. By the last return which I received of that Company it appears the following persons were officers, viz: John Kingsbury, First Lieutenant; Philip Jones, Second Lieutenant; James Wall, Third Lieutenant, and John Curlew Vance, Lieutenant fire worker. If you think those persons shall rise in regular succession there will then remain a vacancy for the latter office, for which appointment I take the liberty of recommending Robert Douglass, who has acted some time as Adjutant to that Company, and who appeared to me to be very diligent, active and well acquainted with discipline.

R. CASWELL.

Resolved, that it be requested of His Excellency the Governor to fill up commissions for the officers in the Artillery Company in regular succession to the vacancy made by the removal of Capt.

John Vance, and grant a commission to Mr. Robert Douglass as Lieutenant fire worker.

Ordered that the above resolve be sent to the Senate for concurrence together with the following Message :

SAML. ASHE, S. S.

Received from His Excellency the Governor the following Message:

To the Honorable the General Assembly:

Gentlemen,

I have in pursuance of your request issued orders to Colonel Abraham Sheppard to proceed with his Regiment and the Artillery Company immediately on to the northward to join General Washington and have filled up commissions for the officers of the Artillery Company.

I am informed that on the first of December there will be two months' pay due to those troops and that there is at least a probability of some inconveniences happening in case the men are marched before they are paid off. Therefore, as the Regimental Paymaster is discharged, I submit to you the expediency of appointing another, or directing the Deputy Paymaster General in this State to attend and pay the arrears due the said troops at the time aforesaid.

I beg leave to inform your honorable body that Mr. Thomas Williams, Commissary to the aforesaid Regiment, is waiting to have his public accounts settled, and hope his business will be expedited, as any delay in that particular may have a tendency to retard the march of the said troops.

Mr. Williams, at the time he accepted this appointment, suggested that it would be impossible for him to furnish provisions to the troops for the sum formerly allowed to Commissaries, owing to the high price every article had risen to, on which I assured him, when he came to lay his accounts before the General Assembly, a reasonable allowance would be made him. I therefore take the liberty of recommending his case to your honorable body, as a singular one, he not being before a Commissary or having purchased provisions previous to his appointment.

R. CASWELL.

This House are desirous to adopt the mode of expression rather than that which is proposed by you as the latter declares the incapability of the Naval Officer and Collector in a particular case and may by some possible construction imply a right of seizure by Collectors or Naval Officers in instances by you not specially described.

That the inspectors of tobacco appointed by the county courts since the last session of Assembly, at any public warehouses in this State, be, and they are hereby continued and declared to be inspectors at the respective warehouses for which they were appointed until appointments can be had agreeable to this Act; and shall have the powers, authorities and emoluments, and be subject to the rules, regulations and restrictions hereinafter mentioned;" and that instead of the words, " Be it enacted by the General Assembly of the State of North Carolina and it is accordingly enacted by the authority of the same" in the second clause as it now stands in the Bill, the following words be inserted: " Be it enacted by the authority aforesaid," and that the following

clauses be inserted immediately after the sixth clause as it now stands in the Bill: "Be it further enacted by the authority aforesaid that the inspectors at Jones' warehouse and the Pitch Landing in Northampton County, respectively, shall pay and satisfy to the arrears of the same the sum of one shilling and six pence for every hogshead of tobacco received, inspected and delivered out of the said warehouses, to be deducted out of the eight shillings a hogshead directed to be received for the use of the County; the owners of such warehouses keeping the same in repair." Your Committee appointed to re-examine the accounts of Capt. John Dickerson, passed at Halifax and Newbern, for horses purchased by him as Commissary for the District of Hillsborough, have inspected the same and find that from the papers and information of the Clerk of the House said John Dickerson was allowed in his account passed with the public at Halifax in November last sixty pounds for two horses of his own and twenty-four pounds for a horse purchased of John Reaves, amounting in the whole to eighty-four pounds, and that the said John Dickerson, was also allowed in his account exhibited to the General Assembly by Lieutenant Ashe afterwards (to-wit:) in April last past, sixty pounds for two horses of his own and twenty-two pounds for one purchased of John Reaves, as per receipt, amounting in the whole to eighty-two pounds in money which is now deposited in the hands of the Clerk of the House.

Mr. William Jones from the joint committee appointed to settle the accounts of James Stuart and Andrew Greer, reported as follows:

Your Committee appointed to examine the charges made by

James Stuart and Andrew Greer Commissaries of the Militia stationed in Washington District for expenses of wagoning provisions for said Militia,

Report as follows:

That it appears to your Committee that the said James Stuart, paid and has obliged himself to pay to sundry persons for wagon hire the sum of thirteen-hundred and ninety-two pounds three shillings, and for allowing to each wagon one shilling and eight pence per mile, each wagon carrying 16 hundred wt. It also appears to your Committee that the said allowance and loads for wagons was the common rule of hiring wagons in that part of the State and that they could not be had at the time the service was performed on any other terms.

It further appears to your Committee by vouchers produced by the above mentioned Andrew Greer, that the sum of seven-hundred and fifty-four pounds including wagon master's pay for Robert Lucas, is due for waggoning provisions for the Militia aforesaid, during the time of his said Greer's acting as Commissary, which sum of seven-hundred and fifty-four pounds is exclusive of a charge which Mr. Greer has for waggon belonging to himself.

Your Committee are of opinion that the same aforementioned charge for waggon hire ought to be allowed, and they submit to the Assembly whether, in that case the said Commissaries ought to be allowed thirteen pence per ration or a smaller sum.

WILLIAM JONES,
Chairman.

The House taking the said report into consideration,

Resolved that the Committee of claims be directed to allow the claims charged for waggon hire by the aforesaid Stuart and Greer, disallowing however, the whole of Robert Lucas' claim as waggon master.

Your Committee appointed to re-examine the accounts of Colonel Henry Irwin as referred to and passed at Halifax in April, 1776, report as follows:

That it appears to them from the accounts passed at Halifax and from other testimony that there is an overcharge in the time of rations of Capts. Ordered that the following Message be sent to the Senate:

Mr. Speaker & Gentlemen of the Senate:

This House have thought proper to accompany the Bill intitled a Bill to impower the Court of Admiralty of this State to have jurisdiction in all cases of capture of the ships and other vessels of the inhabitants and subjects of Great Britain and to establish the trial by jury in the said Court in case of capture.

Also, to establish a Court of Chancery and to regulate the proceedings therein with this Message, the purpose of which is to explain to the Senate the motives that induced this House to propose and annex as an amendment to the Bill constituting a Court of Admiralty ; a regulation for constituting a Court of Chancery.

First, the Commons are of opinion that injustice may be done in many instances by the determination of a Court of Common Law unless a Chancery jurisdiction should be created to correct and soften the rigor of the Common Law.

Secondly, that there are certain matters of trust and confidence deeply interesting to the good people of this State which a Common Law jurisdiction cannot reach, where by manifold abuses of

trust would happen without any authority to shift the trust or compel restitution.

Thereby, thirdly, that unavoidable accidents without a Chancery institution cannot be provided for and human misfortune or oversight become incurable evils.

4, That many judgments heretofore had in the Courts of Common Law have been and still remain hung upon a suggestion of equity which must remain undecided and great injury happen to the recoveries at Common Law in case the equity set forth does not bona fide exist.

5, That the estates of deceased persons, widows and orphans are deeply interested in the trial of matters heretofore begun in the Court of Chancery as they wait decrees of such Court to prevent waste, compel performance of trusts and prevent abuses which if not stayed immediately may induce the entire ruin of those concerned.

This House, too, have been informed that the Bill for constituting a Court of Chancery went from this House to the Senate different in substance from that which passed this House. This refers to the salary of the Judge of that Court which by the vote of this House passed for three-hundred pounds each Court or six-hundred pounds for both the Courts held in one year, whereas, the Bill as you received it entitled the Judge to six-hundred pounds each Court, or twelve-hundred pounds for both Courts, in each year.

This last the Commons never intended and from the real importance of the Bill and the sense which you must entertain of its necessity they are induced to conclude that the high salary thro' mistake mentioned in the Bill was a principal if not the sole reason with your House to reject it, and will be a convincing proof of the propriety of the method which this House now precluded from the introduction of a new Bill, have pursued to introduce this subject to your further consideration.

day; this being objected to, ordered that the Yeas and Nays be taken on the said question, which are as follows:

Gen. Person on behalf of himself and others moved for leave to enter their reasons of dissent against the above amendments which are as follows:

1st, because the member who proposed the amendment did it upon a Message from the Senate to the House of Commons after that Bill had been three times read and passed in the same, which we apprehend is contrary to the usual and ancient mode of doing business in this or any Legislative body.

Secondly, because perpetuities and monopolies are contrary to the genius of a free State and that the granting thereof is a direct violation of our constitution which ought not to be allowed.

Thirdly, because the property of the soil in a free State is one of the essential rights of the collective body of the people.

Fourthly, because it was twice, nearly the unanimous voice of the House not to recognize or take notice of the Indian purchases except the lease from the Tuscarora Indians.

Fifthly, because we have reasons to believe that the protection of the people within the County of Washington and the acquisition of land by conquest and treaty from the Indians has cost this State two hundred thousand pounds and because by the constitution and Law of this State ample provision is already made for trial by Jury.

That the first, second, third, eighth and twelfth articles, the second and third sections of the fourth, and the last sections of the ninth articles of the Confederation recommended by Congress ought to be immediately ratified; and the Delegates for this State ought to be instructed and empowered accordingly; and that the remaining classes, articles and sections thereof, containing matters highly important and interesting to the future people of this State, and involving what may very materially affect the internal interest and sovereign independence thereof, and not immediately essential to the success of the present war, ought not to be ratified until there shall be full time and leisure for maturely and deliberately consid-

Doctor Burke from the Joint Committee, appointed to take into consideration the expediency of keeping up a guard in the frontier Counties in this State, reported as follows:

The committee to whom was referred to consider of the expediency of keeping up a guard on the frontiers of this State, report that the frontiers of the Counties of Burke and Tryon are still in danger from sudden incursions of the Indians inhabiting the val-

lies, commonly called the middle towns; that in the County of Washington, a space of about forty miles, which constitutes a gap in the great ridges of mountains, is also subject to the incursions of the Indians, commonly called the Overhills. That this latter County is already in such a state of defence that there is no apparent danger of their suffering any depredations during the present winter, but it is expedient that the commanding officers there have power to employ some horsemen, not exceeding five, occasionally to watch the motions of the said Indians.

That it is also expedient that in each of the first mentioned Counties, one stockade fort should be garrisoned by twenty-five men under the command of a lieutenant and ensign; that to each of such garrisons should be appointed five horses for the purpose of scouting; and that the men should be allowed three shillings and six pence for every days' service without rations or further allowance of any kind. That the officers should be allowed the militia pay, and one shilling each every day in lieu of rations, and for the hire and forrage for the horses two shillings each, every day.

That, to prevent frauds on the public, the commanding officers of each garrison should every morning and evening cause a roll to be called, and mark down all who shall not appear thereon, and return the same on oath to the commanding officers of the District, and that no pay should be allowed to any officer or soldier who shall not be present at the calling of both rolls, for any day on which such officers or soldier shall be so absent, except it be on necessary duty.

That the Governor should issue warrants for the pay of such garrison once every three months as the same shall appear by the rolls aforesaid which for that purpose the Commanding Officer of the District ought to return, certifying that the same was sworn to as above mentioned.

That there should be kept in each of such garrisons one hundred weight of gunpowder, and lead in proportion, for which the Commanding Officers respectively should be accountable, and be strictly enjoined that no part of it be used except on necessary public duty, and that he should make regular monthly returns thereof and of the several commands on which the soldiers of each garrison have been ordered, that such garrisons should be consid-

ered as a part of the militia of this State, and under the command of the officers thereof agreeable to the militia Law ; all which is submitted to the House.

Whereas, it appears to this House that Joshua Hampstead late Commander of the armed Brigantine Pennsylvania Farmer has grossly abused the trust reposed in him by this State on a voyage which he lately performed to the West Indies by order of this State, by refusing to deliver the articles which he brought in for public purposes to the persons authorized to receive them and that he has in some instances made sales thereof and applied the monies to a very considerable amount to his own use and has retired to some other State beyond the operation of the Laws of this State.

Resolved therefore that it be recommended to the Delegates of this State to make inquiry after the said Joshua Hampstead and make application to the Executive power of the State, where he may be found that he be delivered up to this State, where he may be prosecuted for so gross a breach of confidence or a prosecution instituted against him elsewhere if our delegates shall think proper.

Resolved, That the Washington Armed Brigantine belonging to this State, her guns, tackle, apparel and furniture be sold by public sale to the highest bidder; and that William Hooper, Esq., and Mr. Henry Toomer, be appointed Commissioners for that purpose, and that the said Commissioners shall give forty days' notice in the Gazettes of South Carolina, Virginia and this State previous to the day of such sale, and that the said Commissioners pay the monies arising from such sale to the Commissioners for procuring arms aforesaid which monies the said Commissioners are hereby required to apply for that purpose.

A Court of Enquiry to set tommorrow Morning at Some Convenient Place near the Post of Artillery to Enquire into the Conduct of the Artillery Officers whose Field Pieces were Lost in the Action of 26 of June Last, the Court is Appointed by the Request of those Officers. The Commander in Chief has observed with concern notwithstanding the orders of 1st June last Requiring all officers of Corps not sick or on Duty duly to attend the Perrades daily at the Time of Exercise to Learn and Perform their Duty yet there is a very great neglect. He wishes it to be impressed upon the minds of Every Officer that nothing can be more Hurtful to the Service than the neglect of Discipline for that Discipline more than numbers gives one Army Superiority Over Another. He then in the most Positive manner Required all Officers to Attend their Perrades and Exercises Agreeable to the Orders Above Mentioned and that the Commanding Officers of Corps put Every Officer Under Errest who faill of the Least Observance of them and whenever Corps or Brigade Assemble for Exercise Every Officer is to take and Keep his Post. Such as has Command Directing those men only who is under their immediate Care and that in such a

manner as not to Interfere with or delay the Execution of the Exercising Officer. Those Men that appear least acquainted with Exercise are Daly when off Duty to be sent to the drill and Particular Care taken to Instruct them and the more Effectually to Promote military Discipline In the Army, the Officer must set the Example of Close Attention to that Poynt. Assemble frequently each Corps by themselves and Learning with Discipline the manœuvre Exercise and the most usefull manœuvres together with the most usefull Salute all Ready mentioned in Genl. Such a Practise Can't fail of Producing the best Effects and nothing can do the Officers more Honor, they will know their duty and what they have a Right Earned from all who are under their Command; the men by the Example will agreeably Enhance the Opportunity to Improve in the military art. The Genrell expects the strictest attention will be paid to the Order of the 20th of last month for Surveying the Men and Placing the shortest in front. Unless this is done the whole fire of the Rear will most assurredly be Lost, Especially if the files Should happen (as is too often the Case) to be Crowded together. The Commander in Chief approves the Sentence of a Genrell Court Martial held the 6th instant of which Col. Walter Stevens was President. John Halfpenny of the 10th Virginia Reg^t. The Court after Considering the Charge and Evidences are of Oppinion that the Prisoner is guilty of all the Charge Exhibited against him but that of Mutiny. Sentenced the Prisoner to have 39 Lashes on his bare Back.

Dennis O'Bryan a soldier belonging to the N. C. The Commander in Chief approves the following Sentences of a General Court Martial held the 7th 8th and 9th Instant and Ordered

that they be put in Execution forthwith: Lieut Cummings of the first Virginia Reg^t. Charged with Messing with the common soldiers and speaking disrespectful words of the Commanding Officer of the Reg^t. and with carrying a soldier of the 1st Reg^t. away with him ; the Court not having evidence to prove the Charge of speaking disrespectful words of the Commander of the Reg^t. cannot determine whether he is or is not guilty of the Charge ; they are of opinion, considering the particular circumstances of the matter as to the Charge of Messing with Soldiers related by the Prisoner and having no evidence to prove to the Contrary, that he should be Reprimanded by the Commanding Officer of the Reg^t. he belongs to at the Head of the Reg^t. ; the Court do excuse the Prisoner for taking a soldier away with him from the Regiment Considering the bad state of health he was in.

John Walker a serg^t in Capt. John Street's Independent Company Charged with absenting himself 12 days from his Company without leave Pleads Guilty but that he was returning to his Company when taken up ; sentenced to be reprimanded at the head of his Company and one month's pay to be stopped from him. Anthony Eastheart charged with the same cause as Walker belonging to to Capt. Street's Independents, Sentence Do. Sol^m. Grant of the 14th Virginia Reg^t Charged with sleeping on his post pleaded guilty, and sentenced to receive 25 Lashes on his bare back, but it appearing in Evidence that he was a good, orderly, well behaved soldier and that he was probably unwell when on Sentry the Commander in Chief remits the punishment.

Lieut Samuel Smith of the 8th Pennsylvania Reg^t. ungentlemanlike behaviour in the Reg^t. and Disobedience of Orders. Acquitted of the charge of Ungentlemanlike behaviour, but found guilty of disobedience of Orders, not attending the Parade as constantly at ordering times as he Ought to have Done ; sentenced to be severely Reprimanded in Gen. Orders ; the Commander in chief is extremely sorry that an Officer of whom it is testified that in a post of Danger he behaved himself with prudence and spirit should be guilty of neglect of Discipline, which is so essential to furnish good soldiers ; a neglect so contrary to orders highly injurious to the service and Disrespectful to the subject of it, a neglect for which neither prudence nor bravery compensates and which if persisted in must be an effectual bar to promotion.

John Doherty of the Artillery charged with stabbing Lieut Carrington of the 7th Virginia Reg^t.; the Court having considered the charge and the Evidence, are of opinion that the Prisoner is guilty of the charge and are likewise of the opinion that though the Prisoner is guilty of the charge against him he was justifiable in doing it as he was acting in the way of his duty.

As the weather is bad and wet the General orders a gill of rum to be served to each man immediately. From intelligence lately received the Genl. informed the Army that it is possible the next move of the Army may be towards the Delaware but desires no steps be taken towards it till further orders. Thomas Fosdick Esq, was on the 1st Instant appointed Brigade Maj. to Brigadier Genl. Glover and to be obeyed and respected as such. Roger Alden Esq. is appointed Brigade Major to Brigadier Genl. The Commander in Chief was surprised today to see the bad Condition of many Arms, they being not only unfit to fire which latter defect is certainly in the power of every man to prevent; the Neglect of it must arise from an Inexcusable Inattention of the Officers. The tents are to be struck at Gun firing tomorrow morning (which will be at the usual time) and the whole army got ready to march. It was yesterday Directed in General Orders that neither Officers nor soldiers should Pull off their Hats or pay any Salute to

the Commander in Chief or any other Officer Passing by and the total disregard of the order is a proof how Little pains Officers take to acquaint themselves or Men with Orders. Of the other Orders that Issued the fourth Instant Respecting the march of the Army is also Neglected in instances which Come Immediately Under the observation of the Commander in Chief which cannot be presumed to Arise from any other cause than Ignorance of those Orders.

For the Future all Officers are to make themselves Acquainted (Each Day) with the Orders of it.

And with Respect to Orders referred of the fourth Instant the Commander in Chief Commands that the Brigadiers do as soon as possible call together the Commanding Officers of Brigades in their respective Brigade and Read to them these Orders and the Commanding Officers of Corps are in Like manner Required to assemble all Officers in their respective Corps and Read to them the same orders and all who are not all ready provided are further required to furnish themselves with copies of them and still more Effectually to Execute those Orders Each Brigadier to appoint a Field Officer to attend the march of his Brigade and Particularly to attend the Wagons belonging to it, whose business it shall be to ride backward and forward along the Line to see the march conducted with Propriety and Agreeable to Orders. Advantage to be taken of the halts to have the horses shod & the wagons repaired. No delay is to be made in this matter as it is very Uncertain how soon the Army may march again ; for the same reason all officers and soldiers are to keep near quarters and on no pretence to Ramble about the Country without Leave ; Officers from their Brigadeir's and Soldiers from their Col's or Officers Commanding them.

All Wagoners are to joyne their respective Brigades and get in their proper order for marching When the Army moves again the Officers and Wagon Masters are to see that they are more Equally loaded than they have been.

When any men fall sick on the March they are not to be put into the heavy loaded Baggage Wagons but be Left to be taken up by the empty Wagons which follow in the Reare for that end. The Commanding Officers of Corps are Emeditately to make returns to the Adjt. Genl of the Clothes most wanting in their respective corps and as the Quantity of Clothing is not Great the

Commander in Chief most Earnestly Requests that Officers will not make returns for more than is Essentially necessary for their men. Brigadier Orders a Return agreeable to Genl. Orders of yesterday to be immediately made of such Clothing as has not been drawn for by their Detachment or difrent Battalions since March last which Return the Captain or Commanding Officer of Company will Compare with their Necessary Roll and Make out a just one by which a Draft can be made.

Some Disputes having arisen between Hampton and Col. Johnston Respecting Seniority, the General Officers are to meet at some place appointed by Maj. Green at 5 O'clock this afternoon, and after hearing the Pretentions of Both those Officers, and Inquire Minutely into the Matter, to report the Case and their Oppinion thereon to the Commander in Chief. The frequent Discharging of Pieces in order to clear them and keep them in order occasions so great a waste of Ammunition that the Gen^l Orders in very Pointed and propitious Terms that no Musquet be loaded with Cartridge untill we are close to the Enemy, and there is a Moral Certainty of Engaging them. The troops having arrived at the place of Encampment so early they can with the greatest Ease provide themselves with wood, and Each Brigade Gen^l. will see that done accordingly ; that fences are ever burnt, is imputed to Inattention & want of Care in Officers, but at this Time will be Deemed to arise from the most Irreverent Negligence. How Disagreeable to the Army is it that the Peaceable Inhabitants, our Country men & fellow Citizens, Dread our halting among them, Even for a night And are happy when they get redresses—This can only Proceed from the Distress from the Plundering and wanton destruction of their Property. To prevent those Evils it is the manifest Duty of the Officers, and were they Closely attentive to that Discipline and that it should ever be Established in Camp, for the most part Certainly might prevent them—The Commander in Chief therefore Expects that Officers of every Rauk will exert themselves & Put a stop to such a Practise for the future—And if no other means will be sufficient that they Post Centries round their Encampment who shall take Prisoners every man when Guilty of them, and the Guilty will most assuredly meet with a Punishment Due to their Crimes. Two Soldiers in Gen^l. The regimental paymasters are to apply immediately for a warrant to Receive the pay for their several Corps for the month of June. As the time is Uncertain when the Army may March, but may be very soon and sudden all Officers and soldiers are to keep near their quarters, & such Officers as have had leave to go to Philadelphia, are to Return, & none Permitted to go thither, but upon real Necessary Business, which being finished, they are Com^d to join their respective Corps—whenever the Army moves, it will Probably be necessary that it March with the Utmost Celerity ; the Tents therefore Agreeable to former Orders are to be loaded in wagons by themselves, and in such Manner that they may without Difficuity keep up with the troops ; for the same reason the Officers will take with them but a few articles of Cloathing, such as shall be Indispesably Necessary, leaving the bulk of their Baggage to be brought on After them And in order to facilitate the March, the Q. M. G. is to provide so many waggons as Necessary to Carry the mens Packs, but their Packs are not to be stuffed with loads of useless trumpery, as from the sizes of many there is reason to suppose is now the Case ; the Officers are to see that they are not, for which purpose the Commander in Chief most Earnestly Desires and Expects that the Officers Particularly Inspect the Packs of their men and Select only such articles as are Necessary & Useful, all the rest of Each mans, being rolled up by itself, is to be Col-

Pursuant to a Resolve of Congress of the 6th July last, the Officers Commanding Reg^{ts}. & Corps are directed that in Case they have any Serg^t, Corp^l, Drummer or Private man, Deemed Ineapable of doing Field Duty, such Men should be Examined by the Director Gen^l. of the Hospital, or some other Physician or Surgeon, and if judged fit for Garrison duty, are not to be discharged, but transferred to the Invalid Corps & sent to Philadelphia, as soon as possible—Men only having one leg or one arm each, if otherwise Capable of doing Garrison Duty are to be Deemed proper Recruits for this Corps.

Head Quarters Roxboro Aug. the 8th 1777

At a General Court Martial held the 18th & 19th of July last, the following Soldiers were tried for various Crimes & acquitted—Viz

Joseph Halburt of the 15th Pennsylvania Regt. was Tryed for Desertion, but it appeared to the Court that he was Intitled to the Benefit of the Pardon Granted by the Commander in Chief Previous to the Execution of Thomas Smith who was shot at Middle Brook. Timothy Branner & William Smith of the 6th Maryland Regt. William Foster and Adam Brooks of the 10th Vir. Regt. Isaac Proctor of the 15th Vir. Regt. found guilty but the Commander in Chief Grieved at the Number of Offenders, Ever Desirous of showing Mercy, where, it is not Incompatible with Publick Good and hoping that his Clemency may hereafter have a happy tendency to reclaim the Guilty was pleased to grant a General Pardon & the Offenders Convicted are hereby Declared to be Pardoned ; the following sentences of the same Court Martial are approved of by the Commander in Chief: Capt. Fursback of Col Armand's Corps Charged first for Absenting Himself without Leave, secondly when being Ordered to joyne his Comp'y when under Arms Answered he had Time Enough & Declined Doing it, thirdly, when being put Under Arrest, made use of bad Language & Treated the Col. in a manner Unbecoming an Officer, fourthly when the Corps were Ordered to March Into Amboy he Uttered Discontent Loudly before the Soldiers, & wanted to know why they were returning to Amboy, acquitted of the first and found Guilty of the second third and fourth charges & sentenced to be Reprimanded in Gen'l Orders & to ask Pardon of Col Armand in the Presence of the Officers of his Corps. The Commander in Chief wishes all Officers to be

impressed with this Truth, that nothing is more essential in the Military Service than an Exact subordination & ready obedience to the Commands of Superior Officers, that it is this which gives Life and vigor to an Army, that a Contrary Conduct must Clog & impede every Movement & Excite a spirit of Discontent Disobedience and Licentiousness amongst the troops, that in their view the Conduct of Capt. Fursback must be deemed highly Criminal & of a very Dangerous Tendency. Lt. Higgins, Capt. Clarke & Lt Kinly of the Eighth Vir. Regt. and Capt. Lungdon of the 12th Vir Regt. Charged Severally with Neglect of Duty in not having their mens arms in good order & with Disobedience of the Genl Orders Relating thereto Acquitted. Capt Berry Lt Myers & Ensign Westall of the eighth Vir Regt., Capt Brent and Lt Smith of the 4th Vir Regt, Charged severally with Neglect of Duty in not having their mens arms in good order & with Disobedience of the General Orders Relating thereto—found Guilty and sentence that Lt Myers & Smith be severely reprimanded in general Orders. The mander in Chief cannot forbear to Express his astonishment at the Carelessness of Officers in a Point of such Importance as this now mentioned, & that this Carelessness too should take Place after repeated & most Particular Orders Recently given to have the Arms thoroughly Cleaned and put in the best Order seeing their own Personal safety, that of the Army and of the Country depends upon the efficiency of the mens arms. 'Tis Truly surprising that Officers can rest easy for one hour when there is the smallest probability that they are unfit for Immediate Action whether Orders for Examining and Cleaning them be given or not, for it is a duty so obvious that the Officers of Regts. and Comp'y's should see to it themselves at all times and not Oblige the Commander in Chief to Attend to every Circumstance that Regards Each Particular Corps. The Brigade Commissaries are to attend this afternoon 5 O'clock at the Market House in German Town to Draw a Gill of Vinegar per Man for their Respective Brigades.

The Field Officers of the North Carolina Brigade constituting a Board for filling a vacancy occasioned by the resignation of Lt. Col: Ingram of the 8th Regt., having complained of the irregularity of the promotion of Col. Lamb and Col. Lytle & having requested of Gen. Nash to lay before his Excellency the Commander in Chief, their state of the case, previously to the s'd vacancy being filled, the Gen'l informs them he has done so & received from his Excellency the following answer, viz.

It appears to me by the representation signed by the Board of Field Officers of your Brigade that it had been the usage of the State of North Carolina for all the officers to rise Regimentally by which rule Col. Lamb & Col. Lytle succeeded in Course.

When the regulation was made by a Board of Gen'l Officers on the 13th of June last, that all promotions to the rank of Maj. should be Regimentally & after that in the line of State ; it was never intended to have a retrospect other ways, it would have unhinged the arrangement of Pennsylvania, Virginia, and most of the Eastern States. I am therefore of the opinion that it was the usage of the State of N^o. Carolina to promote Regimentally when Col. Lamb and Col. Lytle received their Commissions. That they should hold them and that the eldest Major upon the line in your State shall succeed Lt. Col. Ingram. The said Board of Field Officers will therefore proceed to fill the said vacancy & to make the proper arrangement, in consequence of the s'd promotion.

And as it is possible Our March will be Northwardly, the Genl. once more Recommends to the Officers in general to leave any superfluous Baggage they may have at this Place. The Experience of Last Campaign Abundantly evinced the Absurdity of heavy Baggage & the Disadvantage Arising therefrom, to Individuals as well as to the Publick. As it is of great Importance that the Commander in Chief should be well informed of the state and Strength of Every Part of his Army, it will be Necessary that Weekly Returns be made. Lieut Deaver & Ensign Grassaway of the 3rd Maryland Reg^{mt}. tryed for disobedience of Orders & neglect of Duty in absenting themselves from their Reg^{ts} without leave; Found Guilty of a breach 2nd Article 13th Sect. of the Articles of War. It gives the Commander in Chief more sensible Pain to find any Officer's Conduct so very blameable as that of Lieut Deaver & Ensign Grassaway. The striking Propriety and Necessity of Officers staying with their Corps in Camp is well known to every Private; the Gen^t. is therefore sorry he is obliged to reprimand Lt. At a division General Court Martial, held at Peek's Hill, July 16th, '78, Lt. Col. —— President, Lieut. James Armstrong of the 3rd Pennsylvania Regt. was tryed for behaving in a scandalous manner & beating a number of Persons, breaking windows and being guilty of other abusive treatment; after due consideration the Court are of opinion that Lieut. Armstrong was Guilty of Beating Quarter Master Bradford, but think that the provocation was somewhat equal to the offence; that he was guilty of Breaking cellar windows and other abusive treatment, but upon the whole cannot pronounce his behaviour Scandalous, though unjustifyable & notwithstanding his good character as an Officer & Soldier, do sentence him to be reprimanded in General Orders.

At the same Court Capt. Thos. Moore & James Christie, of the 5th Pennsylvania Regt., tryed for the same Crime: the Court are of opinion that they are not guilty of Behaving in a Scandalous manner, beating a number of persons or breaking windows, but find them guilty of abusive Treatment & sentence them to be reprimanded by the Commanding Officer of the Brigade. The Commander in Chief is sorry that he has occasion to declare that Caps. Christie, & Moore and Lieut. Armstrong were thro' the whole of this affair in a Circumstance that did them very little honor. He laments they should suffer themselves so far to deviate from that

Line of Delicacy & Decorum which they owe to their own characters as to Engage in a Riot & Tumult of so singular a Complexion, Especially as it rather appears by their own defence that they left their regiments without leave.

Capt. Moore and Christie & Lieut Armstrong are Released from their Arrest.

The Brigade Majors and Adjutants of the day are to be very alert in telling off the Guards so soon as they are assembled on the Parade that the men may not be fatigued by long standing. They are also to see that the men stand firm, with their heads erect, and observe the strictest silence whilst this is doing.

A chain of Centries are to be Posted along the front of the Road at forty yards distance, within which none but the Genl-Field and other Officers of the Day are to be admitted. As there is something Extremely awkward and unmilitary in Officers saluting at different times & in different manners, the following General Direction is to be observed :

The Saluting Officer is to look full in the face of the Officer Saluted, his Body upright and his step firm, & to begin at such a distance as to finish the Salute when opposite the Person to whom it is Intended. The motions of the sword or fusil, and the feet ought to be Exactly in Concert, in order to which, & for the Graceful Performance of Salutes, it is Expected that Officers will spare no trouble or Pains to Perfect themselves, & arrive at Dexterity and Uniformity, as it is a matter which forms no unessential Part of their Duty and will be highly ornamental to their Military appearance & Character. -

When the Guard are ordered to March off, the Brigade Major is to see that they all step off at the same instant with the left foot, and the Officers of Platoons will be particularly attentive that the step is afterwards preserved.

As the Platoons pass in review before the Major Genl or Officer Commanding the Parade, the men are to hold up their heads and look full in their face.

No Officer who has regimentals is to mount Guards in any other dress, and when men are warned for Guard, they are to be directed to come on with Clean hands and faces, hair combed and powdered, and are to appear in all respects as decent and Soldier-like as circumstances will permit. Brigade Major and Adjutants will recol-

lect it is an indispensable part of their duty to attend to this, and to see that the men's arms, ammunition and accoutrements are constantly in the best order. The Major-General of the day thro' the field Officers will have a careful inspection made into these several matters, and when there appears to be any deficiency, will call the B. Major and Adjutants to account on the spot, and either reprimand, arrest or acquit, as circumstances shall warrant. These are to be considered as standing Orders, which it is expected all Soldiers & Officers will be made acquainted with and punctually observe.

The Troops of the whole Line will Exercise and Manœuvre on the principles heretofore established for the main Army twice a day from five to seven O'clock in the morning, and from five to seven in the evening, to begin tomorrow evening. The Brigade Inspectors will perform the duties of their Office as heretofore directed, by the order of the fifteenth of June last.

Co^l Davis will superintend the right wing, and those Brigades on the right of the second line.

Lt. Co^l. Brooks will superintend the left wing, and two Brigades on the left of the second Line conformable to the Spirit of the same order.

The Brigadiers and the Commanding Officers of those Brigades, who have no Brigade Inspectors appointed, will recommend to Head Quarters proper persons for that purpose.

The whole army to be under Arms tomorrow morning at 5 O'clock Precisely with their tents struck and rolled up and Packs Slung, further orders will then be given by the Adjutant General.

At a general Court Martial, whereof Col. Stewart was President, July 29th 1778, Lieut. Col. Regnier Tryed first for leaving his Regmt. when alarmed by the firing of the Patrols upon the lines on the morning of 29 June last, and not joining it again till the alarm was over ; 2ndly, for Purchasing a Horse from a Soldier which Property belonged to the Continent ; 3rdly, for treating Adjutant Sachett in an unofficer & ungentleman like manner, the Court having Considered the charge & Evidence, are Unanimously of opinion, that Col. Regnier is not Guilty of either of the charges Exhibited against him, and are further of Opinion that they are groundless Vexatious & dictated by Private Pique & malice. They acquit him with honor.

At the same Court, July 31st, 1778, Capt. Sileron acting as a Volunteer in the 4th New York Regt., was tryed for Calling Adjutant Sachett a Liar and Drawing his sword on him when unarmed, 2ndly, for Insinuating that he was a Coward and Challenging him to fight a Duel, The Court having considered the first charge, are of Opinion That Capt. Sileron is Guilty thereof but as the abuse was reciprocal, and as Capt. Sileron could not mean by drawing his sword to take advantage of Mr. Sachett's being unarmed, the Court think the Punishment of Lying in arrest (a punishment Pointed out by the article of war, of which his Crime is a breach & which Capt. Sileron has already suffered) is adequate to the fault he has committed, they are Likewise of Opinion that Capt. Sileron is Guilty of the 2nd charge Exhibited against him, but as the challenge was given by him Immediately, as it Proceeded from the instantaneous Resentment of an Incensed Gentleman, and was not sent on Cool reflection, the Court are of the Opinion that Capt. Sileron has not been Guilty of a Breach of the article of war which prohibits sending Challenges, & to determine that he does not deserve Censure.

Likewise, Lieut. Norton of the 2nd Pennsylvania Regt. tryed for Entering the Encampment of the 3rd Pennsylvania Regt., in

Company with several others in a riotous & mutinous manner, for attempting to enter Col. Craige's house between the hours of 12 & 1 in the morning of the 4 of June with a drawn sword, was unanimously acquitted of the charge Exhibited against him. His Excellency the Commander in Chief approves the sentences.

The Commander in Chief in very Express and positive terms forbids Soldiers to remove, burn or otherwise destroy the rails belonging to the Inclosures in and about Camp, and Expects that Officers of all Ranks will use their utmost Exertions to Prevent this wanton & Injurious abuse of Private Property or bring to severe Punishment the Offenders.

The Adjutant Genl. in ordering a detachment for guards or scouts, is always to mention the number of days for which they are to draw Provisions. Notice of which being Communicated to the Regimental Quarter Master (Thro' the proper Channel) makes them responsible for the men of their respective Regiments that they may bring the Provisions ordered.

Commanding Officers of every Detachment for more than a day before they march from the Parade are to enquire, if the men are provided agreeable to order, and if they are not to Lodge the names of the Deficient men and the Regiments they belong to with the Adjutant Genl. who is Positively directed to arrest and bring to tryals the Delinquent Quarter Masters, and if the Commanding Officer of the Party Neglects to make this enquiry before he leaves the Parade, he makes himself Responsible and must answer accordingly. This is to be Considered as a standing Order, and all Officers are to pay strict attention thereto, as it hath been found in some Instances that a Neglect has defeated the end of Detachments, and in others that the Country People have suffered Greatly in having their Provisions Forced from them to supply those Parties. For three days' Detachment, to be furnished with two days' Provisions, ready cooked, and 40 round per Man.

Lt. Cols., Regnier & Starr ; Majors, Lidnard & Winslow.

The Officers Commanding the several Guards are to be pointedly exact in reporting in time the occurrences of the day ; at any rate they are not to delay doing this beyond 12 O'clock, that the whole may be drawn into one view and presented by the Maj. Genl. before three P. M.

That the whole army may be served with the same ration the Commissary Genl is, till further orders, to issue as follows : One pound $\frac{1}{2}$ flour, or soft bread, or 1 lb. of hard bread ; 18 oz. beef, fresh or salt ; 1 lb. pork, or 1 lb. of fish, & 2 oz. butter ; a gill of rum or whiskey, when to be had ; the usual allowance of soap and Candles. The Maj. Genls., with the Brigadiers, and Officers Commanding Brigades under them, are to examine the ground well in front and round about their respective Encampments, & assign each brigade its alarm post. In doing this, after the ground has been previously examined, they are to cause the Brigade to be drawn up, on such as shall be respectively intended for them, that the space required for each may be ascertained.

A discharge of 3 pieces of artillery as usual from the Park is to be the signal for alarm.

At a General Court Martial July 27th, 1778, Col. Steward, President, Doct. Brown, of the 14th Virginia Reg^t, Tryed for going not only without the leave, but against the Express Consent of the Com^g Officer, & that at a time when the distressed situation of the Regiment required the Doctor's Particular attention, for Neglecting to have a Furlough, which he said he had obtained from Doct. Cochran, registered as is positively directed in Genl Orders of 22nd of Dec. last. The Court having considered the Charges and Evidence are unanimously of opinion that Doct. Brown is guilty of the charges exhibited against him, but in consideration of the very bad state of health at the time he left his Regt., & that his conceiving that a furlough from Doct. Cochran was

entirely sufficient, the Court only sentenced him to be reprimanded in General Orders. That the facts stated in the first charge is proved, yet the Commander in Chief cannot think that it contains any Imputation of Guilt, because, by the establishment of the Medical Department, the Surgeon General had a right to give Dr. Brown a furlough in the manner he did, and it appears, besides, that the Doctor's state of health did not permit his attendance on the Regt. His conduct was certainly blameable in not having the furlough registered as directed, ignorance of which is the worse of all Possible Excuses.

For two days' guard to be furnished with 40 rounds, & 2 days' Provisions, ready cooked.

Duportail, as he is desirous of having the Companies Established without delay. This being a species of service well worthy the ambition of Gentlemen of zeal and talents who wish to advance

At a General Court Martial, whereof Co^l. David Hall was President, 4th Aug.. 1778, Capt. Seely, of the 5th Pennsylvania Regt., Tryed for leaving his Guard before he was properly releived; found Guilty of the Charge Exhibited against him, being a breach of the 4th art. 12 sec. of the articles of war, and sentenced to be reprimanded in General Orders.

The Commander in Chief confirms the sentence, tho' he could wish a severer punishment had been decreed to an offence, which is of the highest military Criminality, and of the most dangerous tendency, and the safety of the army altogether depending on the strict discipline and unremitting vigilance observed by officers on Guard, particularly at the out Post.

At the same Court, Neil McGoungle, of the 7th Pennsylvania Regt., Tryed for threatening Capt. Scott's life; also for drawing his bayonet and stabbing him repeatedly while in the Execution of his Office; found Guilty of the Charges Exhibited against him, and sentenced by a more than two thirds of the Court to be shot to death. His Excellency, the Commander in Chief, approves the sentence.

The Commander in Chief has thought Proper to Pardon the following Criminals who were under sentence of Death & to have been Executed this day, Solomon Lyons, John Craig, Zack Ward, Rich'd Burk, Michael Carman, Wm. McLaughlin, John Jenkins, Nich. Fitzgerald, David Potter & Neal McGonnigal. Notwithstanding the general Good Character of the latter Criminal as a Soldier, the wounds he has received in fighting for his Country, the warm Solicitation of several respectable Officers in his behalf & Even the special Intercession of Capt. Scott himself to whom the Injury was offered, it is with extreme difficulty the Commander in Chief Could Prevail with himself to Pardon an Offence so atrocious as that Committed by McGonnigal. Even the Least Disrespect from a Soldier to an Officer is Criminal & Deserves severe Punishment, when it Proceeds to any kind of Personal Violence. The Offender justly merits Death, but when it extends to an attempt on an Officer's Life, as was the case in the Present Instance, it assumes a Complexion so enormous and aggravating that it even wants a name and puts the Criminal almost beyond the Reach of Mercy itself.

The Genl. is happy to reflect that this is the first time an Instance of the kind has Come before him, he thinks it Necessary to warn every Soldier that a similar one will never hereafter be forgiven, whatever may be the character of the offender or the Intercession of the Officers.

Several deserters from this Army to the Enemy who have since Returned, having been permitted with Impunity to join their

Regiments, the Genl. to prevent an abuse of his Lenity by its being drawn into Precedent & made an Encouragement to others to Commit the same Crime takes Occasion to declare in Explicit Terms that no man who shall desert to the Enemy after the publication of this Order, will Ever be allowed to enjoy the like indulgence, but whether he Returns Voluntarily himself or falls into our hands by any other means, will Infallibly suffer the Punishment decreed to his Crime.

The Hon'ble the Congress have been pleased to agree to the following report of their Committee, and to pass the Resolution annexed to it :

In Congress, 17th August, 1778.

The Committee to whom was referred a Letter from Genl. Washington, of the 28th July, Respecting Genl. Putnam, and the Report of the Court of Enquiry on the subject of the Posts on the Highlands of Hudson River Taken last year, which was Transmitted to Congress, report that upon a Careful Examination of the Facts stated by the Court of Enquiry and Consideration of Evidence taken and Transmitted it appears that those Posts were not lost from any Fault, Misconduct or Negligence of the Commanding Officers but solely through the want of an Adequate force to maintain and defend them, Resolved that Congress agree to said Report.

At a Brigade Court Martial, 14th, July, 1778, Lt. Col. Popham, President, Lieut. Waters and M^o. Namara was tryed for speaking disrespectful of the Commander in Chief, treating Lieut. Hill in a scandalous manner unbecoming the characters of gentlemen and raising a riot, and contemptious treatment of Col. Harrison after being arrested. After mature deliberation the Court are of opinion, that Lieut. Waters is guilty of treating Lieut. Hill in a scandalous manner unbecoming the character of a gentleman, but as the provocation from Mr. Hill was so considerable and so very apt to produce in Lt. Waters a forgetfulness of his character as a gentleman and an officer, they view the crime as in some method Palciated, therefore only sentence him to be reprimanded by the Commanding Officer of Artillery in the presence of all the Officers,

of that Corps. The Genl. approves the sentence and orders it to take place tomorrow morning at roll call.

The Court find Lieut M^o. Namara Guilty of Speaking disrespectful of his Excellency Gen'l. Washington, Treating Lieut. Hill in a scandalous manner unbecoming the character of a Gentleman & Contemptuous treatment of Col. Harrison, after being arrested, & Unanimously adjudged that he shall be Cashiered. The Commander in Chief is sorry to be under the necessity of deciding a Cause of this nature & would readily Remit the sentence & acquit Lieut. M^o Namara, if his Behaviour to Col. Harrison his Com'g Officer had not been so gross & disorderly as to Compel the Gen'l. to Confirm it.

The General Court Martial whereof Maj. Gen'l. Lincoln is President will sit tomorrow at the time & Place mentioned in yesterday's Orders. Members the same Except Col. Willis Vice Col Courtland who is on Command.

Head Quarters, White Plains, Tuesday, Aug. 25th, 1778.
Maj. Gen'l. tomorrow, De Kalb.

Brigadier, Patterson.
F. Officers, Col. Nixon, Lt. Col. Allison, Maj. Stewart.
Brigade Maj., Humphries.

A Court of enquiry to sit tomorrow morning 9 O'clock at Col. Marshal's Marquee or Quarters, who is appointed President, upon a complaint exhibited by Doct. Brown, against Col. Davis. Lt. Col. Woodford, Maj. Read & a Captain from 1st Penna & Clinton's Brigades to attend as Members.

The Quarter Master Genls. Com'ys, Cloathiers, &c., will in like manner be ready to move with the Officers of their respective detachments.

At a General Court Martial 5th (?) Augt., 1778, Col. Hogun, President, Lieut. Lewis, of the 9th Virginia Regt. was tryed for disobedience of Orders on the 27th of last June, found guilty & sentenced to be reprimanded in General Orders. The good character

given Lieut. Lewis by his Commanding Officer has prevented the Court being still more severe in their sentence. The Commander in Chief looks upon Lieut. Lewis, conduct as an unexcusable breach of Military Discipline. The plea of not knowing Col. Swift under whose Immediate command he then was cannot be admitted as Lieut. Lewis, if he was in any doubt, might very easily and very naturally have asked from whom the Orders came. At the same Court Joseph Coder of the 3rd Maryland Regt. & John Sawlin (?) of Col. Nixon's Regt. tryed for desertion, found guilty & sentenced to receive 100 lashes each. The Commander in Chief approves the sentences and orders them to be put in execution tomorrow morning at guard mounting at the head of the Regiments to which they respectively belong. At the same Court August 20th, 1778, Lieut. Lane of the 2nd Jersey Battl. was tryed for unofficer like procedure in opening a park for the British Commissaries to Congress while on Command at second River. Found guilty of a breach of Article 5, 18 sect. of the Articles of War, & sentenced to be cashiered.

At a Brigade Court Martial, Aug. 22nd, 1778, Col. Patton Presid. Lt. Levi Gatlin of the 2nd North Carolina Batt. was tryed for Neglect of Duty and disobedience of orders. Was unanimously found guilty and sentenced to be dismissed the service. The Commander in Chief approves the two last mentioned sentences, & orders it to take place Immediately. At a Brigade Court Martial, 23rd Aug., 1778, Col. Chambers, President, Josias Mensey (?) was tryed for desertion to the Enemy, found guilty & sentenced to suffer death.

The Commander in Chief approves the sentences.

Received by way of the House of Commons the following Message from His Excellency the Governor together with the letter therein mentioned to the Honorable the General Assembly :

Gentlemen :

This accompanies a letter I this day received from Col. Long with the copy of a letter from Col. Finnie, Deputy Quarter Master General in Virginia to him, by which you will observe a quantity of lead is expected to be sent from this State for the use of the Grand Army and that Col. Long is sending waggons here to receive the same.

On examining the Commissaries return of store, I find there is not a sufficient quantity of lead to load the waggons, from hence. That there is upwards of 45,000 in the several magazines belonging to this State, of which 6,017 is at Kingston and 1023 at Halifax, the last two quantities I apprehend will be as much as Col. Long will be able to furnish waggons to carry and whether you will think proper to direct that the United States be supplied with the same is submitted to your consideration.

Sent by Mr. Rogers and Mr. Robertson.

Received by way of the House of Commons the following message from his Excellency, the Governor, together with Sundry Resolves of Congress, and other papers therein mentioned :

To the Honorable, the General Assembly,

Gentlemen :

Herewith you will receive sundry Resolutions of Congress, letters from General Washington, a letter from Brigadier General McIntosh, with a return of North Carolina Brigade, and sundry other public letters and papers, which have come to hand since the rising of the last General Assembly. The very important matters recommended in those papers, and the delay occasioned by my not having it in my power to lay them before the Legislature sooner, will point out the necessity of lodging power somewhere of summoning that body (in case of emergencies) to attend at a shorter day than that to which it may be adjourned.

I have directed the Journal and proceedings of the Council of State to be laid before you. And although I have complied with the advice of the council in the several matters by that board recommended since the last Assembly, yet it becomes necessary that I inform you particularly how far I have in some instances to enable you to judge of the propriety of the measures and from your own determination in respect to them.

I have appointed a Lieutenant of the guard at Kingston, furnished him with a warrant on the Treasury for money sufficient to enable him to enlist the number of men directed by the General Assembly, procured Arms & Clothing for the guard and appointed a person to furnish provisions. An acct. of the Arms, Clothing and Provisions, with the Officers return of Stores and Men, shall be laid before you. As no person applied or was recommended to be appointed Lieutenant of the guard at Halifax, I frequently wrote Gen. Jones on the subject and enclosed him a commission to be filled up to a proper person to command the guard and requested him to contract with some person to furnish provisions but am not yet fully informed how far he has proceeded, in the

course of the Session, I hope to be able to give you the fullest information in respect to that Guard. A pretty large quantity of Clothing has been purchased and the greater part forwarded to the Clothier General of the Continental Army for the use of the troops raised in this State. Among the goods forwarded are sundry, very useful and necesary articles which were taken by order of two of the Justices of Craven county as the property of Messrs. Savage and Westmore, the service claimed by one Mr. O'Connor. The measures which was taken in this case can only be justified from the necesity of it, and as they were adopted purely for the public good, I flatter myself they will be approved by the General Assembly. The invoice of those goods with the other papers relating thereto, shall be laid before you to the end that a proper allowance be made to the persons from whom they were taken.

Two of the Gentlemen appointed Commissioners in conjunction with the Commissioners of Virginia and Maryland to regulate and ascertain the prices of labor, manufactures, internal produce and commodities imported from Foreign parts, and also to regulate the charges of freeholders proceeding to Fredericksburg, Virginia, where together with the Commissioners of that State, they entered on the business recommended to them by Congress and came to some resolutions thereon, which they have reported to me. Those resolutions I now lay before you for your consideration.

Commissioners have been appointed to hold a treaty with the Indians inhabiting the towns in the middle settlements and valleys but the time since the commission was sent up has not been sufficient, I apprehend to enable the Commissioners to complete that service. If any report is made to me by them in the course of the session I shall lay the same before you.

6640 pounds weight of cannon powder has been purchased for the public since the last Assembly, and lodged in the magazine at New Bern. The cost thereof with the charges shall be laid before you.

A letter from the Governor of Virginia of the 23rd of February respecting the ship Caswell was delivered me a few days ago and a pay roll of the crew belonging to the said ship with the Captain's remarks on the usefulness of a tender. These I also lay before you for consideration and think it necessary to acquaint you that Cap-

tain Wilson informed me he had one hundred and forty five men on board the said ship and that the ship was properly fitted to proceed to Ocracock Bar and waited my orders. But as I am not fully acquainted with the contract made by the Commissioners of this State with the State of Virginia in respect of the two galleys said to be built at the joint expence of the said States I could not tell how far I might be justifiable in giving Capt. Wilson orders, therefore only advised him to proceed with his ship immediately to Ocracock and protect the trade in the best manner in his power until he heard further from me and that in the mean time I would lay this business before the Legislature. The defenceless condition of Ocracock and the recent behaviour of the enemy there shew the necessity of a speedy determination in the measures you shall think proper to take.

R. CASWELL.

JNO. WILLIAMS, S. C.

At the same time received the report referred to in the above message, which is as follows:

Report of the joint committee appointed to consider the Dispatches, letters, &c., laid before the Assembly by His Excellency, the Governor.

The committee having considered the matters to them referred, came to the following resolutions:

1st. Resolved that it is expedient to sink the old money, and that a Bill be brought in for that purpose.

2nd. Whereas, the terms agreed upon between the Commissioners of this State and the Assembly of Virginia, respecting a naval armament to be kept up for the Defence of Ocracock, have not been complied with by this State, insomuch that the Frigates

which were stipulated by the said commissioners to act on the part thereof in concert with two row gallies to be built by the Commonwealth of Virginia, have been sold or otherwise employed; and whereas, the protection of Ocracock is essentially necessary to the trade of this State;

Resolved, therefore, that this State will take one of the said gallies, to-wit: The Caswell at the original cost thereof, and pay and victual the officers and men thereto belonging from this date forward, and that the pay of the said officers and men shall be as follows, viz:

For the Commander, per day, \$3.25; Lieutenant, \$2.25; Master, \$2.00; Doctor, \$2.75; Captain of Marine, \$2.25; Lieutenant of Marine, \$2.00; Master Mate, \$1.50, Midshipman, \$1.50; Boatswain, \$1.50; Common Sailors, \$35.00 per month.

Resolved, also, that a small, fast sailing vessel ought to be purchased and fitted as soon as possible to act as a tender to the Caswell.

3rd. Whereas, the Continental Congress have recommended that three delegates from every State be in constant attendance in Congress, and as this State has only three delegates by which means they must be constantly attending or the recommendation of Congress not complied with on the part of this State;

Resolved, therefore, that the General Assembly ought, for the future, to elect four delegates to represent this State in Continental Congress.

4. The Committee having considered the requisition of Congress and of Gen. Washington for filling up the Continental Battalion belonging to this State;

Resolved, that two-thousand men be raised as expeditiously as possible for that purpose to serve nine months from the time they shall appear at the place of rendezvous and that the several counties in this State furnish their proper quotas in proportion to the number of Militia in each County after deducting for such exemptions as were allowed by the act passed at the last session of the General Assembly for drafting five-thousand men to go to the Northward. And in order to induce men to enter as volunteers into the service,

Resolved, that a bounty of one-hundred dollars be given to every person who shall voluntarily enter, and the several counties

shall make up their respective deficiencies out of the Militia in the following manner:

The field officers and captains shall determine how many each company shall raise in proportion to their number of Militia and the men and officers of each company shall vote and determine by ballot, being first sworn to vote for such as they shall think can best be spared, who shall go to make up its deficiency, and every person so voted in shall have a bounty of fifty dollars, and each company shall also furnish and provide a pair of shoes and stockings, two shirts, a hunting shirt, waist-coat with sleeves, pair of breeches and trousers, a hat and a blanket, according to the several proportions on quotas of the companies for each and every man who shall voluntarily enlist or be voted in as aforesaid, and the articles afore mentioned shall be valued on oath by three indifferent freeholders who shall grant certificates to the persons furnishing the same, and such certificatees shall be received by the tax gatherers in part of taxes. Each and every soldier who shall find a good gun of his own shall be allowed three-dollars and the several captains shall have power to press for deficiency.

5. Whereas, it appears by letters and resolutions of the Continental Congress that there is danger of the army of the United States suffering for want of provisions and cloathing.

Resolved, therefore, that proper persons be appointed in different parts of this State to purchase all the salt-pork and bacon therein other than such as may be intended for family use, for the continental Army, and also all the coarse clothes and linen blankets and leather, allowing the prices current at this day and granting certificates to be redeemed at the next Assembly, and if any person having any of the above articles for sale or having more than may be necessary for family consumption shall refuse to sell or dispose of the same, then the purchasers to be appointed as aforesaid shall have power to seize, provided that they shall not seize any goods imported into this State by foreigners while property remains in such foreigners.

6. Resolved that a vagrant Law ought to be enacted, and that the Law for preventing desertions ought to be amended or a new Law enacted.

WILLIAM JONES,
Chairman.

State of North Carolina,

In the House of Commons, 20 April, 1778.

Resolved, that this House concur with the first, second, third, fifth and sixth, resolutions of said report in the whole, and that they concur with the fourth resolution with this alteration vizt that instead of allowing the exemptions mentioned in the act passed at the last Session of the General Assembly for drafting five thousand men to go to the northward, such persons only as have fairly obtained certificates of having enlisted as regular soldiers to serve in the Continental Army, agreeable to an act passed April and May Sessions, 1777, shall be exempted.

To the Honorable, the General Assembly,

Gentlemen :

I received your message of this day, acquainting me that the two Houses of the General Assembly had on Saturday last elected a Governor and Council of State for the ensuing year, and desiring I would qualify as Governor and proceed in the execution of that important office, in answer to which I am to inform you that I have, since the commencement of the present disputes with Great Britain, considered it a duty incumbent on every individual not only to stand forth in the cause of this country in defence of her freedom and liberty, but also to perform any trust she may call upon him to execute. Under these considerations, and your very honorable and unanimous appointment of me for the third time to be Governor of this State, being such a mark of your approbation of my past conduct, that however diffident I may be of my own abilities, I should be wanting in duty to my country if I did not accept the same. Bryan, Mr. Hunter, Mr. Clinton, Mr. Davidson and Mr. Hawkins a committee.

JNO. WILLIAMS, S. C.

Mr. Luke Sumner, the chairman of the Committee of Privileges and Elections, reported as follows:

Your committee are of opinion that the seats of four members of this House be vacated, and offer these reasons for the same: They find from a careful examination of the Constitution that all persons who are receivers of public monies by virtue of any office while in possession of that office, or who are in anywise holders of public monies, are deemed and held by the said Constitution inelegible to a seat in the General Assembly, and as they find four members as aforesaid, to-wit: Ambrose Ramsay, Ralph Gorrell, Charles McDowell and Needham Bryan, to be possessed of the office of entry-takers for the Counties they respectively reside in, Your committee, therefore, deeming said office of entry-takers to come expressly within the letter, and meaning of the Constitution and being willing to pursue the same in every article inviolate, do, therefore, hope the House will concur in this report, as your committee are unanimously of opinion that acquiescing in those gentlemen's holding their seats, would be a direct infringement of the Constitution, and a dangerous precedent.

Your committee further report that the objections offered against Mr. Shepperd, especially the legality of his holding a seat in this House, are deemed by them insufficient; it appearing to the satisfaction of your committee that Mr. Shepperd enjoys no lucrative office, nor doth he hold any public monies in his hand, except this House shall suppose money which may be due to a county to be due to the public.

Your committee, as above, are, therefore, of opinion that Mr. Shepperd is elegible to a seat in this House agreeable to the spirit and intention of the Constitution.

Signed by order,

LUKE SUMNER, Chairman.

The same being read, was concurred with.

On motion, resolved that Writs of Election issue to the Counties of Johnston, Chatham, Burke and Guilford for the election of members to represent said Counties in this House in the stead of Needham Bryan, Ambrose Ramsey, Charles McDowell and Ralph

Gorrell, Esquires, whose seats are vacated by their being appointed to and accepting of the office of entry-takers in their respective Counties, and that the said elections be held on the first Monday in June next.

Mr. Speaker and Gentlemen of the Senate :

We herewith send for your concurrence a resolve of this House relative to the appointment of a surveyor in Caswell County.

At the same time, received the resolve referred to in the above message, as follows :

Whereas, it is certified from under the hand of William Moore, Clerk of Caswell County, that the Justices for said County, at a court held for their said County, on the second day of March, 1778, did then and there proceed to the choice of a surveyor, when a certain Lawrence Vanhook, Esquire, who at that time enjoyed the office of tax gatherer, was chosen surveyor aforesaid, not by a majority of Justices then present on the bench, but by only nine out of twenty ;

Therefore, resolved, as the opinion of this House that the said election was not legal, and that it be recommended to the Justices of the County of Caswell to choose at the next court some fit person to execute the office of surveyor agreeable to Act of Assembly passed at New Bern in December, 1777.

Resolved also as the opinion of this House that one and the same person cannot by the Constitution hold the office of Surveyor and Tax Gatherer.

Whereas, it appears that in the several counties of this State upwards of one thousand persons have already been recommended to His Excellency, the Governor, to be commissioned as Justices of the Peace exclusive of those nominated during the present session, and whereas it is probable that unless timely prevented the numbers of those officers may increase so as to become burdensome and prejudicial to the State ;

Resolved, that every person heretofore recommended and commissioned as a Justice of the Peace who hath not already qualified as such ought not to be considered in commission or suffered to

qualify as such, until such person shall be again recommended and commissioned agreeable to the Constitution, and resolved also that no person shall in future be recommended and commissioned agreeable to the Constitution as a Justice of the Peace for any county in this State unless the numbers of Justices then in commission for such county shall be less than the proportion of two Justices for every hundred Militia men in the said county.

Mr. Speaker and Gentlemen of the Senate :

Upon reconsidering the resolution respecting the garrisons of Forts Hancock and Johnston, we conceive that it ought to be rescinded so far as it relates to the soldiers of such garrisons, because it evidently tends to defeat the intent of erecting the said Forts in as much as there is no encouragement held out to induce men to enlist, we would therefore propose that all such persons as shall enlist in either of the garrisons aforesaid previous to the first day of June shall be exempted from the vote for persons to be raised to complete the North Carolina Continental Battalions.

At the same time received the resolve of the Senate referred to in the above Message, and the same being read was rejected.

Received from His Excellency the Governor the following Message:

To the Honorable the General Assembly,

GENTLEMEN:—

Herewith you will receive sundry resolutions of Congress, letters from General Washington, a letter from Brigadier General McIntosh, with a return of the North Carolina Brigade and sundry other public letters and papers which have come to hand since the rising of the last General Assembly; the very important matters recommended in those papers and the delay occasioned by my not having it in my power to lay them before the Legislature sooner will point out the necessity of lodging a power somewhere of summoning that Body (in case of emergency) to attend at a shorter day than that to which it may be adjourned.

I have directed the Journal and proceedings of the Council of State to be laid before you. And although I have complied with the advice of the Council in the several matters by that Board recommended since the last Assembly, yet it becomes necessary that I inform you particularly how far I have proceeded in some instances to enable you to judge of the propriety of the measures and form your own determinations in respect to them.

I have appointed a Lieutenant of the Guard at Kingston, furnished him with a warrant on the Treasury for money sufficient to enable him to raise the number of men directed by the General Assembly, procured arms and cloathing for the guard, and appointed a person to furnish provisions. An account of the arms, cloathing and provisions, with the officers' returns of stores and men, shall be laid before you. As no person applied or was recommended to be appointed Lieutenant of the Guard at Halifax, I frequently wrote General Jones on the subject, and inclosed him a commission to be filled up to a proper person to command the guard, and requested him to contract with some person to furnish provisions, but am not yet fully informed how far he has proceeded. In the course of the session I hope to be able to give you the fullest information in respect to that guard.

A pretty large quantity of cloathing has been purchased, and the greatest part forwarded to the Clothier-General of the Continental Army for the use of the troops raised in this State. Among

the goods forwarded are sundry very useful and necessary articles, which were taken by order of two of the Justices of Craven County as the property of Messrs. Savage and Wetmore, though since claimed by one Mr. O'Conner, the measures which were taken in this case can only be justified from the necessity of it, and as they were adopted purely for the public good, I flatter myself they will be approved by the General Assembly. The invoice of those goods, with the other papers relating thereto, shall be laid before you to the end that a proper allowance be made to the persons from whom they were taken.

Two of the gentlemen appointed commissioners in connection with the commissioners of Virginia and Maryland to regulate and ascertain the prices of labor, manufactories, internal produce and commodities imported from foreign ports, and also to regulate the charges of inn holders, proceeded to Fredericksburg, in Virginia, where, together with the Commissioners of that State, they entered on the business recommended to them by Congress, and came to some resolutions thereon, which they have reported to me. Those resolutions I now lay before you for your consideration.

Commissioners have been appointed to hold a treaty with the Indians inhabiting the Towns in the middle settlements and Valleys, but the time since the Commissioners was sent up has not been sufficient, I apprehend to enable to Commissioners to complete that service. If any report is made to me by them in the course of the Session, I shall lay the same before you.

Six thousand and six hundred and forty-eight pounds of Cannon powder has been purchased for the public since the last Assembly, and lodged in the magazine at New Bern, the cost thereof with the charges shall be laid before you.

A Letter from the governor of Virginia of the 23rd of February respecting the ship Caswell, was delivered me a few days ago and a pay roll of the Crew belonging to the said ship, with the Captain's remarks on the usefulness of a Tender. These I also lay before you for consideration, and think it necessary to acquaint you that Captain Wilson informed me he had one hundred and forty-five men on board the said ship, that the ship was properly fitted to proceed to Ocracock Bar and waited my orders. But as I was not fully acquainted with the Contract made by the commissioners of this State with the State of Virginia in respect to the two Galleys

said to be built at the joint expence of the said States, I could not tell how far I might be justifiable in giving Captain Wilson orders, therefore only desired him to proceed with his Ship immediately to Ocracock and protect the trade in the best manner in his power until he heard further from me, and that in the mean time I would lay this business before the Legislature.

The defenceless condition of Ocracock and the recent Behavior of of the Enemy there show the necessity of a speedy determination in the measures you shall think proper to take.

R. CASWELL.

To the Honorable the General Assembly,

GENTLEMEN:—

This accompanies a letter I this day received from Colonel Long, with the copy of a letter from Col. Finnie, Deputy Quarter Master General of Virginia, to him, by which you will observe a quantity of lead is expected to be sent from this State for the use of the Grand Army and that Col. Long is sending wagons here to receive the same.

On examining the Commissaries return of stores I find there is not a sufficient quantity of lead to load the wagons from hence, that there is upwards of 45,000 lbs in the several Magazines belonging

to this State, of which 6817 lbs is at Kingston and 1023 lbs at Halifax, the last two quantities I apprehend will be as much as Col. Long will now be able to furnish wagons to carry, and whether you will think proper to direct that the United States be supplied with the same is submitted to your consideration.

R. CASWELL.

To His Excellency, Richard Caswell, Esquire, Captain-General, Governor, &c., &c.

SIR:—

The General Assembly having proceeded on Saturday last to the election of a Governor of this State for the present year by ballot agreeable to the Constitution, you, sir, were unanimously elected to fill that important office. Your Excellency is, therefore, desired to qualify forthwith and proceed in the execution of the office as the law directs.

Mr. Jones, from the Joint Committee appointed to consider the dispatches, letters, &c., laid before the Assembly by His Excellency, the Governor, reported as follows :

The committee having considered the matters to them referred came to the following resolutions :

1. Resolved, that it is expedient to sink the old money and that a Bill be brought in for that purpose.

2. Whereas, the terms agreed upon between the Commissioners of this State and the General Assembly of Virginia, respecting a naval armament to be kept up for the defence of Ocracock, have not been complied with by this State insomuch as the Frigates which were stipulated by the said Commissioners to act on the part of this State in concert with the two Row Gallies to be built by the commonwealth of Virginia, have been sold or otherwise employed. And whereas, the protection of Ocracock is essentially necessary to the trade of this State,

Resolved, therefore, that this State will take one of the said gallies, to-wit :

The Caswell at the original cost thereof and pay and victual the officers and men thereto belonging from this date forward, and that the pay of the said officers and men shall be as follows, .viz :

We herewith send for your concurrence a resolve of this House allowing Mr. William Blount a certain sum therein mentioned.
Mr. Jones, from the committee appointed to consider the petition of Mr. John Wilcox, reported as follows:

The committee having inquired into the subject matter of the petition, and obtained all the information which could be had at this distance from the scene of the transactions referred to, we are of opinion that Mr. Wilcox has sustained damages through means of the interference of the public with his Iron Works in Chatham County to a considerable amount over and above the sums of money heretofore advanced to him by the public with the hire of McKnight's negroes, the improvements made by the commissioners and the pig iron made by Mr. Mills, inclusive. They were also of opinion that the Iron Works ought to be restored to said Wilcox, together with the damages which have accrued by the interference of the public;

Resolved, therefore, that the resolution of the General Assembly in December, 1776, directing the payment of five thousand,

four hundred and eighty-six pounds to said Wilcox for the Iron Works aforesaid, and appointing commissioners to sell the same, be rescinded ; and that the said Iron Works, with the appendages, including the lands and every article heretofore sold by said Wilcox to Robert Rowan and Philip Alston, commissioners, on behalf of the public, be surrendered by the State to said Wilcox, and the conveyance above mentioned, and the contract made between the said Rowan and Alston and Wilcox, be henceforth null and void, and that either of the Treasurers pay to Mr. Wilcox the sum of one thousand pounds for and on account of the damages by him sustained without any deduction whatever.

Resolved, also, that the resolution of Congress at Halifax in December, 1776, reserving the Iron Ore Hill and the vacant lands adjacent for the use of the public, be rescinded.

The House taking the said report into consideration, concurred therewith.

Ordered, that the said report be sent to the Senate for their concurrence, together with the following message :

Mr. Speaker and Gentlemen of the Senate:

We herewith send for your concurrence the report of the committee appointed to consider the petition of Mr. John Wilcox.

Mr. Brooks moved for leave to enter his reasons of dissent against the determination of the House respecting the report of the Committee of Privileges and Elections, which are as follows, viz:

1. Because his constituents have petitioned this present General Assembly for redress of grievances in the last act of Assembly entitled an act for establishing officers for receiving entries of claims of lands in the several counties within this State, for ascertaining the method of obtaining titles to the same and for other purposes therein mentioned, which above mentioned petition particularly concerns the entry takers and much against their interest, and that he thinks the House ought to have been Judges of the election

qualification of their own members before any Bills were prepared and passed into laws, and that the entry takers are precluded by the Constitution; and as at the first sitting of this Assembly, there was a committee appointed for that express purpose: who yesterday had express orders from this House to make report this day, and last night he believes the report was prepared by which their seats were vacated, for which reasons he saith the report ought not to be delayed when matters of the greatest importance were likely to be agitated before the said entry takers seats were vacated for which reasons he thinks the report was withheld.

Received from his Excellency, the Governor, the following Message:

To the Honorable the General Assembly.

I herewith lay before you a letter from Col. William Williams, of Martin County, signifying his resignation of his commission of Colonel of the Militia in that County, recommending a gentleman to succeed him and others to rise in succession, which I beg leave to recommend to your consideration. I take the liberty of mentioning some circumstances relative to the Wake regiment lest a matter of some moment to the public should be omitted. In April Session, 1777, Col. John Hinton, an old and experienced officer who had served in that character in the expedition against the regulators in 1771, and also in that against the Highlanders and others at Moore's creek in 1776, in both which as I was an eye witness I can venture to assert he behaved with becoming bravery and resolution, was removed from his Command and Mr. John Hinton, Jr., appointed to succeed him, to whom I sent a Commission and shortly after had the same returned and also the Com-

mission sent the Lieut. Colonel, Mr. Thomas Hines, who both refused to act, suggesting that the elder Col. Hinton in their opinion had been ill treated. These letters I laid before the Council who advised my appointing Col. Hinton (the Elder) again to the command of that regiment. I did so, but his commission expired with the end of the last Session of Assembly. The Wake regiment of course was without a Colonel until the matter was again laid before the Council and that board a second time advised the appointment of Col. Hinton, and a Commission accordingly issued to him, which commission will have no force after the rising of the General Assembly. I mention these circumstances to the end that your Honorable Body may if you think proper to appoint a Colonel to the Wake regiment, Col. Hinton (the Elder) is so well known and his services to the public so recent in the memory of many of your Honorable members that I flatter myself he will obtain your approbation and appointment.

Resolved, that John Hinton, Sen., Esquire, be appointed Col. of the Wake Regiment of Militia.

That Whitmell Hill, Esquire, be appointed Col. of the Martin Regiment of Militia, in the room of William Williams, Esquire, resigned; Thomas Wiggins, Esq., Lieut. Col.; Kenneth McKenzie, Esq., first major, and John Hardison, Esq., second of the said county. That His Excellency, the Governor, be requested to make out commissions agreeable to this Resolve.

Received from the Commons the following Message:

Mr. Speaker and Gentlemen of the Senate:

We herewith send for your concurrence a resolve of this House for adding to the number of Delegates from this State in Congress.

Also the following resolve, which being read was concurred with.

At this critical and interesting period when the affairs of these United States bear so promising an appearance and with wisdom in Council, and valour in the field will in all probability issue happily, it is highly incumbent on the good people of this State that their representation in the Continental Congress be large

enough to secure a constant attendance of members sufficient to co-operate with the Delegates of other States and to signify the assent of this State to such measures as Congress in its wisdom may think fit to adopt.

And as from the great distance of North Carolina from the place where Congress has been heretofore held and is at present sitting, exact frequent journeying thither to attend, with almost insupportable fatigue or the members who have been detained there during the time of their appointment have undergone a painful separation from their families and their private business has been totally neglected, and in some cases from indisposition of the members on the spot or other accidents which whilst the representation of this State continues so small cannot be provided against, this State has in some cases been totally without representation much to the prejudice of its interests and rightful importance in the Councils of America.

Resolved, therefore, that two members shall be added to the Delegation of this State who shall be and continue in office for and during the term of one year unless sooner removed by the Assembly of this State, of which five members, three, and no more, shall unless prevented by unavoidable accidents attend the Councils of Congress, and any two of them present in Congress shall have full power and authority by their vote assent to bind the inhabitants of this State in all cases not inconsistent with the Constitution thereof and its rights and privileges as an independent sovereign people and the instructions they shall receive from this State.

Resolved, that the Delegates so attending in Congress shall each and every of them during their stay when the Congress shall sit, and in going thither and returning from thence receive an allowance at the rate of sixteen hundred pounds per annum for such portion of their year as they shall be so employed in the public service. And that the said five Delegates may in such manner as shall best consist with their several and respective conveniences settle by common consent the rotation of duty, and be at Congress or at home as they can agree, provided, such regulation strictly consists with the nature and intentions of this appointment.

Ordered that the following Message be sent to the House of Commons :

Mr. Speaker and Gentlemen of the House of Commons :

General Rutherford, from the committee appointed to take under consideration the several letters and papers received from His Excellency, the Governor, relative to the Cherokee Indians, reported as follows :

It appears to your committee by the complaints of the said Indians that trespasses have been committed on the lands within their hunting grounds, which if not timely prevented may involve this State in a second war with the said nation, and as your committee conceive that the most effectual method to remove the jealousies now subsisting among the said Indians would be to pass a law by this present Assembly empowering the Attorney General of this State to prosecute all offenders who may trespass or commit any depredations on the said Indians, and that no person in this State be suffered to trade or traffic with the said Indians unless they first obtain a license for so doing from the Judges of the Superior Courts of this State, and that His Excellency, the Governor, be requested to write to the Governors of the States of Virginia and South Carolina to use their influence in procuring acts to prevent persons from their States trading with the said Indians without licences from some civil authority, which your committee are of opinion would prevent the many abuses which at present prevail, your committee also recommend it to the General Assembly as their opinion that His Excellency, the Governor, be requested to transmit the substance of such act of Assembly, when passed, in a talk to be presented to the Chiefs or head men of the middle and

valley settlements of Cherokees by Col. Charles McDowell and Major Charles Robertson, and in which talk His Excellency, the Governor will be pleased to assure the Indians that this State will be ready at all times to hear their complaints and redress their grievances, and in return expect and hope that the strictest harmony and friendship may subsist between the said Indians and the good people of this State.

Your Committee are also of opinion that the Superintendant of Indian Affairs cannot render that service to this State that might be expected unless he resides in the Indian Nation therefore recommend it to the General Assembly that Mr. James Robertson, the Superintendant, be directed to reside in the said Cherokee Nation during his continuance in office, all which is submitted.

GRIFFITH RUTHERFORD,
Chairman.

The House taking the said report into consideration, concurred therewith.

Concurred with by this House except the seventh section.

At the same time received the report of the Committee referred to in the above Message as follows:

The Joint Committee of both Houses appointed to take into consideration the divers letters and messages from and to the Continental Congress and certain other papers referred to the Assem-

bly by His Excellency, the Governor beg leave to report as follows:

That this State stands indebted to sundry persons in large sums of money which have been principally incurred by raising a body of troops at the request of the Continental Congress to reinforce the Continental Army, and that this State has pledged the public faith for the payment of the same, that the Treasury of this State is at this time exhausted and that the means of obtaining a supply without a further provision by the Legislature are distant and uncertain and that therefore there is an absolute necessity to emit a sum of money equal to the present pressing exigency.

That the present depreciation of our money is in a great measure owing to the quantity of counterfeit money, which has been so well executed as to deceive the most skilful and thereby has been drawn into circulation in common with the currency of the State and scarce distinguishable therefrom.

That the money emitted under the authority of Congress since our war with Great Britian has been in some degree prejudiced by an inviduous and injurious distinction made by the disaffected in favour of what is commonly called old money and which from their obstinate prejudices in favour of a government, their adherence to which can no longer support them, and which only proves their obstinacy and its weakness, has by them been preferred to the currency which has the credit of our present happy constitution to support it. For these reasons your Committee recommend that the sum of two hundred and twenty thousand pounds be emitted in Bills of credit for the payment of the debts which this Sfate is bound in Honor immediately to discharge your Committee presuming that such sum will be fully equal to that purpose.

That the further sum of six hundred and thirty thousand pounds be emitted to redeem the whole of the currency which is at present circulating in this State, the committee supposing that the last mentioned sum may be equal to the redemption as well of the monies emitted under the authority of Great Britian as of this State since the Origin of that controversy which has happily terminated in our total separation from it.

That the Bills emitted be struck in a printing press and not in a rolling press as the impressions of the former are less capable of being imitated to produce deception than of the latter and counterfeiting will thereby be in some degree discouraged.

That the Bills emitted under the British Government and by the authority thereof shall be held irredeemable and that the credit of the State shall not be pledged for them after the first day of January, 1779.

That the Bills emitted under the authority of Congress since our war with Britain shall be paid into the public Treasury before the first day of May, or be held irredeemable.

Wm. HOOPER,
For the Committee.

The House taking the said report into consideration concurred therewith.

Mr. Speaker and Gentlemen of the House of Commons :

Herewith you will receive a resolve of this House ordering the public Printer to print the resolves of the Assembly.

General Rutherford, from the Committee appointed to take under consideration, the Petition of Mrs. Martha Gilchrist in behalf of her husband, Thomas Gilchrist, reported as follows :

It appears to your Committee that Mr. Thomas Gilchrist was under peculiar circumstances regarding his connections in Britain and the West Indies, which rendered it out of his power to recover his interest without leaving this State at the time he did.

That it manifestly appears by testimony before your Committee that through the whole course of his conduct since the commencement of Hostilities between Great Britain and the United Colonies, the said Mr. Gilchrist ever showed an attachment to the common cause by submitting and cheerfully contributing to the defence of this State, and that he never did, by word or deed, make use of means to advise or persuade the good people of this State from their allegiance to the same. That in consequence of a resolution of the Continental Congress, the said Thomas Gilchrist sailed from Bermudas and arrived in Georgia, and there took Oath of allegiance on the ninth day of June, 1778, and was admitted a free citizen, from thence he departed and arrived in the State of South Carolina, and on the 21 June, 1778, took the Oath of allegiance and Fidelity and was admitted a subject of that State.

The said Mr. Gilchrist now waits the determination of this Assembly and prays leave to return to his family and friends, and become a subject to this State, and forasmuch as your committee well know that Mrs. Martha Gilchrist is descended from and allied to some of the first families in this State, who as well at this time as from the beginning or commencement of hostilities, have in every part of their conduct manifested a spirited, zealous and warm attachment to the liberties of the United States, and in a par-

ticular manner rendered singular services to this State as Representatives of the free people of the same.

Your committee therefore, in tender consideration of the premises and of the very peculiar circumstances and situation of the said Mr. Thomas Gilchrist, together with the distresses which must naturally arise to the family of the said Mr. Gilchrist, by a separation from his disconsolate wife and helpless children, and forasmuch as your committee in compliance to the resolve of the Continental Congress regarding returning penitents conceive that mercy ought to be extended to such as this Honourable Assembly may think deserving pardon from the pains of death.

Your committee do therefore, in the most earnest manner recommend it to this Assembly that by a resolve of the same to be signed by both Speakers, the said Thomas Gilchrist be discharged from the pains and penalties directed to be inflicted by an act of Assembly of this State entitled an act to amend an act for declaring what "crimes and practices against this State shall be "treason and what shall be misprision of treason," "and providing punishments adequate to crimes of both classes," and for preventing the dangers "which may arise from persons disaffected to the State." And that such resolve immediately after the said Thomas Gilchrist shall have taken the oath of allegiance to this State shall be considered, held, deemed and taken to be a full and free pardon from the pains and penalties of the act aforesaid.

Submitted,

GRIFFITH RUTHERFORD.

The House taking the said report into consideration concurred therewith.

Thereupon, resolved, that in consideration of the peculiar circumstances of Thos. Gilchrist, and out of regard to his family and connections in this State who have invariably been active in maintaining and supporting our happy independency that after taking an oath of allegiance to this State the said Thomas Gilchrist, be discharged from the pains and penalties directed to be inflicted by an act of Assembly of this State entitled "an act to amend act for declaring what crimes and practices against the State shall be treason and what shall be misprision of treason and providing punishments adequate to crimes of both classes, and for preventing the dangers which may arise from persons disaffected to the State," and that this resolve be held and deemed a full and free pardon.

Ordered that the above resolve and the report of the Committee on the petition of Mrs. Martha Gilchrist, with the following message, be sent to the House of Commons :

Received from His Excellency, the Governor, the following Message :

To the Honorable the General Assembly of the State of North Carolina,

Gentlemen :—

In persuance of a resolve of the last Session of the General Assembly, I drew on the Continental Treasury for five hundred thousand dollars, to be applied in raising and marching men to complete the Continental Battalions belonging to this State and to other Continental purposes, and in order to obtain the same in the most expeditious manner, sent Capt. Reading Blount (in whose favour the Bills were drawn) to receive the same with letters to the Honorable, the President of Congress and the Continental Treasury, requesting, in the most earnest manner, the greatest dispatch to be given him, and to remove every doubt respecting the propriety and necessity of so large a draught on the Treasury, I transmitted to Congress and the Treasury Board Copies of the act of Assembly for raising men to complete our Battalions and of the resolve empowering me to draw for that sum of money. Captain Blount proceeded directly to York Town in Pennsylvania, where the Congress then sat, and delivered his dispatches. He was detained three weeks and then dismissed with only one hundred thousand dollars with which he returned and delivered the same to me, together with the Bills I had drawn in his favour; and although I received a letter from the President of Congress, by Captain Blount, in which he says, "Capt. Blount has been long detained by the Treasury but the multiplicity of Business there, I presume has rendered an earlier dispatch impracticable," I have no information either from Congress or the Treasury, why my draught, in behalf of the State, was not answered or what sum had been thought proper to be advanced to this State.

In this procedure of Congress and the Treasury Board, when they had every document necessary to this business before them, and when I had been assured by one of the members of the Honorable Congress that the sum of money drawn for that might be obtained within a week or ten days, at farthest, after application to find so little attention paid to this State, I confess, I feel myself much hurt, and consider it as derogatory to the dignity

of the State as well as a manifest injury to the common Cause. To what this may be attributed, I know not, unless it be the non-attendance of the delegates, for this State, in Congress. I take the liberty of laying before you, for your better information in the premises, the bills in favour of Captain Blount, and copies of my letters with a letter from the President, acknowledging the receipt of them, and a letter I received from him by Captain Blount, the sum sent by Captain Blount not being more than sufficient to pay the bounty of one thousand volunteers, when; at the same time, Congress, in a letter, which I also received by Captain Blount, and which is likewise laid before you, called upon this State to adopt the most effectual measures for speedily reinforcing the Continental army with our quota of troops. This must be absolutely necessary that the General Assembly should be convened as speedily as possible to take this important matter into consideration.

Of the Troops raised under the late act of Assembly, many remain in this State, one Battalion only having been compleated and ordered to march under the command of Col. Hogun.

The Congress having thought proper to reduce the Continental Battalions raised in this State, and to require four Battalions to be filled up (and no more) on the new establishment in addition to those now at Camp, I have directed a Board of Officers of the line to recommend proper persons from among the officers now in the Continental service to be appointed to those Battalions, a list of whom will be laid before you.

The General Assembly, at the last appointment of delegates to represent this State in Congress, did not in the usual manner, vest them with powers to act separately, and of course the commission which I issued in consequence of the appointment, could not take in, regularly, greater powers than the Assembly had thought proper to grant. I lay before you Mr. Penn's letter, which shows the necessity of an explanation of the Assembly's intentions, with respect to the powers of the delegates, collectively and separately. The person who brought me that letter is now waiting for an answer, in order to enable me to give him dispatch, and an early determination in this matter, is necessary.

I lay before you sundry letters and resolutiens of Congress, with other public papers and also the Journals and proceedings of the

Council of State, to which I beg leave to refer you for further and more particlar information.

James Iredell, Esquire, one of the Judges of the Superior Courts having resigned his appointment, the Council of State thought proper to recommend Richard Henderson, Esquire, to supply his place, but as such appointment could only continue to the end of the present Session, I have not issued a commission, you will therefore, be pleased to appoint such Gentleman as you may think proper to that office. Commissions in all other cases have issued agreeable to the advice of the Council

I lay before you, a talk I received from Savanuca or the Raven of Chola, Chief of the Cherokee Indians, with my answer and a copy of a proclamation respecting the Indian Boundaries, and also letters from the Governor of Virginia, the President of South Carolina and Mr. Sharpe, one of our Commissioners, which tend to demonstrate the necessity of holding a treaty with those Indians.

I also lay before you, a letter from the Governor of Virginia complaining of the conduct of the naval officers of this State, in granting permits to vessels, to pass through the same to South Quay in Virginia, and giving clearance to them when outward bound (after clearing out in this State) and receiving fees for the same; to the end you may take such order thereon as you shall think proper.

Captain De Cottineau furnished me with sundry accounts against the State for expences in erecting Fort Hancock requiring payment or some voucher to ascertain his debt as he is about to leave the Country. But the accounts being unsettled I beg leave to lay them, with the vouchers, before you for consideration.

The General Assembly in December, 1777, by resolve, directed the Treasurers to pay into my hands twenty-five thousand dollars which sum I have received and applied to the purposes intended, it therefore becomes my duty to lay a state of the same before you, which I now do for your approbation; and I have the pleasure to inform you that the several articles purchased for the State have been sent on and a great part of them delivered to the Clothier General in Pennsylvania.

At this critical and interesting period when the affairs of these United States, bear so promising an appearance, and with wisdom in Council and valour in the field, will in all probability issue happily, it is highly incumbent on the good people of this State, that the representation in the Continental Congress should be large enough to secure a constant attendance of members, sufficient to co-operate with the delegates of the other States and to signify the assent of this State to such measures as Congress in its wisdom may think fit to adopt. And as from the great distance of North Carolina from the place where Congress has been heretofore held and is at present sitting, frequent journeying thither is attended with almost insupportable fatigue, or the members who have been detained there during the time of their appointment have undergone a painful separation from their families, and their private business has been totally neglected, and in some cases from

indisposition of the members on the spot or other accidents, which whilst the Representation of this State continues so small, cannot be provided against ; this State has, in some cases, been totally without a Representative, much to the prejudice of its interest and rightful importance in the Councils of America.

Resolved, therefore, that two members shall be added to the delegation of this State, who shall be and continue in office the term of one year, unless sooner removed by the Assembly of this State; of which five members, three, and no more, shall, unless prevented by unavoidable accidents, attend the Councils of Congress, and any two of them present in Congress, shall have full power and authority by their vote or assent to bind the inhabitants of this State, in all cases not inconsistent with the Constitution thereof and its rights and priveledges as an independant Sovereign People, and the instructions they shall receive from this State.

Resolved, that the delegates so attending in Congress shall, each and every of them, during their stay where the Congress shall sit, and going thither and returning from thence, receive an allowance at the rate of sixteen hundred pounds per annum for such portion of their year as they shall be so employed in the public service, and that the said five delegates, may in such manner as shall best consist with their several and respective conveniences, settle by common consent the rotation of duty, and be at Congress or at home as they can agree, provided such regulation strictly consists with the nature and intentions of this appointment.

Ordered that the above resolve be sent to the Senate for their concurrence, together with the following Message:

Mr. Speaker and Gentlemen of the Senate :

We herewith send for your concurrence a resolve of this House for adding to the number of delegates from this State in Congress.

Mr. Hooper, from the Joint Committee of both Houses, appointed to take into consideration divers letters and Messages, from and to the Continental Congress, and certain other papers, referred to the Assembly, by His Excellency, the Governor, beg leave to report as follows:

That this State stands indebted to sundry persons in large sums

of money, which debts have been principally incurred by raising a body of troops at the request of the Continental Congress to reinforce the Continental Army, and that this State has pledged the public faith for the payment of the same.

That the Treasury of this State is at this time exhausted, and that the means of obtaining a supply without a further provision by the Legislature are distant and uncertain and that therefore there is an absolute necessity to emit a sum of money equal to the pressing present exigency.

That the present depreciation of our money is in great measure owing to the quantity of counterfeit money which has been so well executed as to deceive the most skilful, and thereby has been drawn into circulation in common with the currency of the State and scarce distinguishable therefrom. That the money emitted under the authority of Congress since our war with Great Britain has been in some degree prejudiced by an invidious and injurious distinction made by the disaffected favorable to what is commonly called old money and which from their obstinate prejudices in favor of a Government their adherance to which can no longer support them and which only proves their obstinacy, and its hostility is by them preferred to the currency which has the credit of our present happy Constitution to support it.

For these reasons your committee recommend that the sum of two hundred and twenty thousand pounds be emitted in bills of credit for the payment of the debt which this State is bound in honor immediately to discharge, your committee presuming that such sum will be fully equal to that purpose. That the further sum of six hundred and thirty thousand pounds be emitted to redeem the whole of the currency which is at present circulating in the State, the committee supposing that the last named sum may be equal to the redemption as well of the monies emitted under the authority of Great Britain as of this State since the origin of that controversy which has happily terminated in our total separation from it.

That of the sum recommended to be emitted four hundred thousand pounds should be emitted in bills of five hundred dollars each, and the remaining sum of four hundred and fifty thousand pounds in bills of various denominations to answer the purpose of small demands and ready change, to which the last sum will be fully equal

and by restraining the emission of four hundred thousand to bills of a large denomination they will be less in circulation and the redundancy of our paper credit being less familiar and conspicuous, it will have a smaller tendency to weaken the credit of it and yet will effectually answer the purposes of men of property, and to perform the larger engagements of trade.

That the Bills emitted be struck in a printing press and not in a rolling press as impressions of the former are less capable of being emitted to produce deception than of the latter and counterfeiting will thereby be in some degree discouraged.

That the Bills emitted under the British Government and by the authority thereof shall be held irredeemable and that the credit of the State shall not be pledged for them after the first day of Jauary, 1778.

That the Bills emitted under the authority of Congress since our war with Britain shall be paid in to the public Treasury before the first day of May or be held irredeemable.

The Joint Committee; appointed by both Houses to take under consideration the several letters and papers received from His Excellency, the Governor, relative to the Cherokee Indians, being met, and having chosen General Rutherford, Chairman, beg leave to report as follows:

It appears to your Committee by the complaints of the said Indian that trespasses have been committed on the lands within their hunting grounds, which if not timely prevented may involve this State in a second war with the said nation, and as your Committee conceive that the most effectual method to remove the jealousies now subsisting among the said Indians, would be to pass a Law, this present Assembly, empowering the Attorney General of this State to prosecute all offenders, which may trespass or commit any depredations on the said Indians, and that no person in this State be suffered to trade or traffick with the said Indians unless they first obtain a licence for so doing from the Judges of the Superior Courts of this State, and that His Excellency, the Governor, be requested to write to Governors of the States of Virginia and South Carolina to use their influence in procuring acts, to prevent persons from their States trading with the said Indians

without licences from some Civil authority, which your Committee are of opinion would prevent the many abuses which at present prevail. Your Committee, also recommend it to the General Assembly as their opinion that His Excellency, the Governor, be requested to transmit the substance of such act of Assembly when passed, in a talk to be presented to the Chiefs or head men, of the middle and valley settlements, of the Cherokees, by Colonel Charles McDowell and Major Charles Robertson, in which talk His Excellency, the Governor, will be pleased to assure the Indians that this State will be ready at all times to hear their complaints, and redress their grievances, and in return expect and hope that the strictest harmony and friendship may subsist between the said Indians and the good people of this State.

Your Committee are also of opinion that the superintendant of Indian Affairs cannot render that service to this State that might be expected unless he resides in the Indian Nation.

Therefore it recommend to the General Assembly that Mr. James Robertson, the Superintendant, be directed to reside in the said Cherokee Nation during his continuance in office.

Whereupon, the said Abner Nash, Esquire, appeared, was qualified, and took his seat.

Received from the Senate the following Message:

Mr. Speaker and Gentlemen of the House of Commons.

You will herewith receive the report of the Committee appointed to take into consideration sundry Letters and Dispatches from and to the Continental Congress, &c.

Concurred with as by your House.

At the same time received the report of the Committee referred to in the above Message.

Endorsed, read and concurred with as by the House of Commons.

The Bill, to amend an act passed in the last Session of this present Assembly entitled an act to alter the times for holding the several Superior Courts of law, and for better arranging the county Courts in this State, was read the second time, amended, passed and sent to the Senate.

The Committee appointed to take into their consideration divers letters and papers containing a charge in behalf of the Continental Congress against Thomas Burke one of the Delegates of this State, together with Mr. Burke's statement of facts and observations offered to the Assembly, in justification of himself, beg leave to report that upon an attentive and dispassionate revisal of the subject matter proposed to them, they observe with extreme concern that it originated from a circumstance so trivial in itself that nothing but the consideration, which Congress, during a debate of near fifteen days, bestowed upon it, could have swelled it into the importance which at present it assumes.

That the indignity which Mr. Burke is accused of having offered to Congress, if any indignity has been intended by him, must have been to the individuals and not Congress, as such, as the criminality alledged is said to consist principally in Mr. Burke's having withdrawn himself and thereby broke up the Congress and prevented their proceeding in the public business.

That the expression charged by Congress to have been made use

of by Mr. Burke, to their Messenger, cannot be vindicated upon the strict rules of courtly manners and refined politeness, but considered as the sudden unpremeditated effusion of fatigue and indisposition made after a debate which had continued the greatest part of a day until 10 o'clock in the evening in which the passions had been much interested and agitated and both the mind and body almost exhausted, it will not justify any asperity of animadversion. Intended, as Mr. Burke alledged it was, for a private gentleman from whom he supposed the Message had been addressed to him, it was not a matter in which the honor of the public Council was concerned, but supposing the possibility of a contempt to Congress, when Congress did not exist Mr. Burke's repeated declarations that he had no such design should have removed every cause of complaint on that score.

But as the consequences which this incident led to are of a nature much more interesting than the occasion of them and require that the Assembly should immediately act upon a question of such capital magnitude.

Your committee further report that the powers assumed in the case of Mr. Burke, and maintained by Congress as their right are such as this State can never concede to them without relaxing their own Independence and giving up the exclusive control which they have over their Representatives in Congress.

That this State has a right and will be ever ready when the occasion requires it, to control, censure, punish and remove their members; and should Congress arrogate to itself these, or any part of these powers, there is no line described when and to what extent this authority might be exercised.

It may be stretched to defeat the Independence of this State, to an invasion of its internal policy and to the total destruction of its due weight in the Councils of the United States.

That altho' evils like these are not to be apprehended from the gentlemen who at present compose that respectable body, altho their wisdom and integrity guard them from every suspicion of extending their doctrines to baneful practices, yet these gentlemen share in the common frailties of nature and must quit the stage of life and their places in Congress to men who may be disposed to improve dangerous precedents to tyrannical purposes and wield a weapon which has been innocent in the hands of their predecessors to the destruction of the good people of the United States.

If at some future distant period a majority of Congress should be found bold and wicked enough to attempt to suppress the freedom of debate in any representative of a State who should heartily stand forth in support of the rights of his constituents and proceed even to censure and punish at their sovereign will and pleasure, the member thus in the way of the views of a combined majority may be shut out from a share in the public Councils and his Judges, who in this case would be Judges party and executioners, would be at large to do an irreparable injury to his constituents who no longer would have any share in controlling their operations.

The Assembly of this State will be ever ready to open their ears to the complaints of Congress against their members and punish their guilt, when established, with impartial severity. They are very sensible that rules of decorum may be necessary in the best regulated Assemblies. That these must be relaxed or strengthened as the members who are subjected to them observe, with respect to each other, an habitual practice of good manners and reciprocal civility. That they have the fullest confidence that the members of this State will not be deficient in this respect, but will unite with their brother Delegates to strengthen that happy bond of harmony in private intercourse and in the public Councils which has advanced the affairs of America to their present prosperous situation and holds forth such a promising prospect of a happy conclusion.

WILLIAM HOOPER,
Chairman.

Your Committee further report as their opinion that the supernumerary Continental Officers remaining should be discharged reserving to such reduced officers the right of perferment according to rank whenever a vacancy may happen, and that the militia Captain commanding the new levies shall take rank and continue with their companies agreeable to law unless where such Captains may have a less number than a full Company in which case such companies to be joined to others in the same circumstances and one Captain to take Command. This arrangement to be made by the said Captains and the men under their Command without the interposition of the Continental officers, and that it is the opinion of your Committee that the Captains of the said new raised levies after such arragements shall command the Continental Lieutenants, and have a right to sit in Court Martials on the trials of the said new raised levies.

The Bill for making two Medicinal Springs in Rowan and Burke Counties and the lands adjacent thereto public property, was read the first time, passed and sent to the Senate.

Mr. Hooper moved for leave and presented a Bill to establish a Court of Chancery and Equity in the State of North Carolina and to regulate the mode of proceeding therein, which he read in his place and delivered in at the table, where it was again read, passed and sent to the Senate.

Ordered that Mr. Gilbert have leave to absent himself from the presence of the House until Monday next.

The Joint Committee of both Houses appointed to re-examine the accounts formerly allowed to William Gilbert, commissary of Tryon County, having met and chosen Mr. Person, Chairman, beg leave to report as follows:

It appearing to your committee that Mr. William Gilbert, at April and May session, 1777, was allowed among other claims a charge for cash paid John Morris for three days' waggon hauling provisions amounting to three pounds, and that by the deposition of said John Morris, taken the 23 day of July, 1778, it appears that said Morris applied to Mr. Gilbert, who agreed to pay him fifteen shillings, alleging that was all the public allowed, and that Morris refused, since which on the 1st August, 1778, the said Gilbert settled with Morris as per receipt filed with your committee.

That also in a charge made and allowed Mr. Gilbert for rations furnished Captain Harding, there appears a manifest error of 2,631 rations overcharged; that Harding's receipt was given for 5,071 rations when in fact only 2440 rations were delivered, and upon

examination of the accounts of William Alston, former commis-
ioner, it appears that the whole of the rations which were delivered
to Captain Harding were allowed Mr. Alston at the Con-
gress at Halifax, so that the public is injured 5,071 rations in this
article of Mr. Gilbert's accounts, amounting at 10 shillings per
ration to the sum of 211 pounds five shillings and ten pence.

It also appears to your committee that Mr. Gilbert as a Justice
of the Peace took and subscribed the probate of an account of
John Potts, for £23 for waggon hire, which certificate of the pro-
bate bears date the 25th April, 1777, and it being alleged to your
committee that the said Mr. Gilbert was not then in the commis-
sion of the peace, which Mr. Gilbert admitted, and for the justifi-
cation, said that he was in the commission under the former gov-
ernment and thought he had a right to act as such at that time.

Your committee have also examined sundry of the vouchers for
rations allowed Mr. Alston, and on comparing them with the
vouchers for rations allowed to Mr. Gilbert since, do find that
much injury hath been done to the public, but not having time
properly to investigate matters so perplexed for want of testimony,
therefore recommend that a further inquiry be made into those
accounts at the next Assembly, which is submitted.

THOMAS PERSON,
Chairman.

The House taking the said report into consideration, concurred

This House having received the report of the Committee appointed by both Houses to take into consideration the Petition of the Moravian Brethren, have not concurred with the same, but propose in the affirmation by that People to be taken, "that they renounce any Fidelity to the present King of Great Britain, his Heirs and Successors, during their continuance and residence in this or any of the United States of America or the Dominions thereto belonging," which mode of affirmation will be satisfactory to the conscience of that useful Society, who deserve well of this

Country, who are daily from their religious economy sending Missionaries to propagate the Gospel in foreign parts when they cannot continue subjects of this State.

Should this meet your approbation, a Bill will be provided for that purpose.

Ordered that the following Message be sent to the Senate:

Whereas, much perplexity has arisen in the Assembly from the application of divers persons soliciting promotion in the Militia and praying the removal of officers in commission upon a suggestion of misbehavior, and as the Assembly cannot be so well informed of the merits of the candidates and the true character of those who are complained of, as the inhabitants of the respective counties where such persons reside.

Resolved, therefore, that when any complaint shall be made against any officer of the Militia, the Commanding officer if the complaint be not against himself, if so the next officer in command, shall cause a Court Martial which shall consist of one or more of the field officers and at least the majority of the Captains of the Regiments who shall hear the charges and allegations made against any officers or officer, provided, such allegation shall be made upon oath and a notice of ten days at least given to the party complained against, and the President shall certify the proceedings had upon the several Court Martials to the next Assembly for this State, and shall name the person or persons who shall in the opinion of the Court Martial be best qualified to be promoted to any vacancy occasioned by the sentence of such Court Martials if approved of by the Assembly.

The Joint Committee appointed to take under consideration the petition of Philip Alston, Lieutenant Colonel of Cumberland County.

The petition of Colonel John Hinton of Wake County; and the petitions of sundry persons in Rowan County, relative to the conduct of Colonel Francis Locke and others, met and elected Willie Jones, Chairman, and proceeded to business.

Upon Considering the petition of Mr. Alston it appeared to your Committee that David Smith, Esq., late Colonel of Cumberland County, resigned his office, previous to the late Session of the General Assembly at New Berne; that Mr. Alston, the petitioner, was then Lieutenant Colonel by the General Assembly at the Session held at New Bern as aforesaid, appointed to fill the office which had become vacant by the resignation of the said David Smith:

In consequence of which proceeding it is suggested by the petitioner that he is injured, for that in right of his office as Lieutenant Colonel he ought to have succeeded to the office of Colonel. Your Committee are of opinion that the petitioner would not claim the office of Colonel as matter of right; for that the General Assembly have a right to appoint whom they please to fill vacancies occasioned by the death, resignation or removal of Field Officers of the militia, however as Colonel Robert Rowan declared in Committee that he resigned his Commission as Colonel of Cumberland County, your Committee beg leave to recommend the petitioner to that office unless sufficient cause to the contrary shall be shown to the General Assembly by the representatives from the said County of Cumberland.

Your Committee proceeded, in the next place, to consider the petition of John Hinton, Esq., so hereby it is suggested that he the said Hinton was precluded from the appointment of Colonel of Wake County in General Assembly (his present commission being granted by the Governor, subject to the determination of the Assembly) by means of Michael Rogers, Esq., insinuating that he, John Hinton, had embezzled and converted to his own use sundry fines on delinquents received in virtue of his office of Colonel. Upon examination of the matter it appeared to your Committee there was some foundation for the charge against Mr. Hinton but as he declared before the Committee that he waived all pretensions to the office of Colonel your Committee did not proceed to a full investigation of the affairs. And as both Mr. Hinton and Mr. Rogers joined in nominating John Hinton, Jr., Esq., to fill the office of Colonel of Wake County, your Committee beg leave to recommend that he be appointed accordingly.

Your Committee proceeded further to consider the petitions of sundry persons in Rowan County against Francis Locke, Esq., Colonel of the County and others, for misconduct in office, when upon examination of witnesses it appeared to your Committee that the said Francis Locke, by the advice of General Rutherford and the Field Officers and Captains in the County aforesaid, directed private places for that purpose of balloting, instead of one General Muster as the Law requires, but his conduct did not arise, as your Committee apprehends, from any evil intention, but rather from an inclination to consult the ease of the people of Rowan inasmuch the said County is very large, the militia numerous, and a General Muster had been called immediately before he was informed of the Law, so that to have called them again at such a busy season of the year, would have been extremely distressing. With regard to this part of the Colonel's conduct it appears that he did wrong with a good intention.

It further appears to your Committee that Captain Jacob Aykler's company met by order of the Captain, for the purpose of balloting, and desired him to hold the poll and return the proceedings to Colonel Locke, who also refused to receive the return for informality, as it ought to have been returned by the Captain, and ordered the company to ballot anew, and attended in person at this second balloting, and when the balloting was near half

through, recommended to the persons who had been voted in, in the former election, to turn out as volunteers and they turned out accordingly, but your Committee are now of opinion that this circumstance supports the charge against Colonel Locke of having squandered the public money, for they conceive it was the wish of the Legislature to have volunteers, and that every man was at liberty to declare himself a volunteer, and entitle himself to the bounty of one hundred dollars at any time before the balloting was accomplished.

The Conduct of Colonel Locke, as it relates to Captain Johnstons company, which is made another charge against him, appears as follows :

That Captain Johnston was appointed by the Court of Rowan County, to administer the oath of allegiance to the people in his District ; that he, said Johnston, appointed and advertised a time and place for administering the oath and the people attended ; but when the oath was read and proposed to them, one of the company huzzaed for King George, and called aloud to the rest to follow him, whereupon about one hundred of the company, in a riotous turbulent manner withdrew, and would by no means take the oath at the time, neither would they take the oath when tendered to them by Captain Johnston at a subsequent day. Some time after this Captain Johnston called his company together for the purpose of raising its quota of men by Law required ; but knowing that the majority of them were tories (which also appeared clearly to your Committee) he apprehended that they had combined to ballot in every officer in the company, and indeed every person who had been active in defending the liberties of his Country. Capt. Johnston refused to hold the poll, but made several fair and equitable proposals, to this effect : that if the Tory Division would send their proportion of men, he himself would turn out a volunteer and undertake to procure the remainder from among the Whiggs ; but they refused to agree to this, and proceeded to ballot, and appointed one James Forbes to superintend, when they voted in as Captain Johnston had suspected every officer in the Company, and every man who had asserted the liberty of his Country as far as the number (17) would admit : But Colonel Locke refused to receive this return also for informality.

After this, various steps were taken to obtain the quota of men from the said company ineffectually, until at length Colonel Locke ordered a muster to be held on the 29th day of June, when he attended in person, and Lieutenant Chapman in the absence of Captain Johnston, who was then gone to the northward, held the poll, and under the eye of Colonel Locke refused to permit a member of the Company to ballot. When the balloting was concluded, it appeared that the persons voted in were all taken from that body of the company which had been refused the liberty of balloting. Your Committee are of opinion that the said balloting was irregular and illegal and is utterly void, and therefore that the men so balloted ought to be immediately discharged. Your Committee beg leave to observe upon the conduct of Colonel Locke, Captain Johnston and Lieutenant Chapman, with respect to this company, that they took every possible step to obtain its quota of men, by drawing them as well from the Whiggs as from the Tories; but this being impracticable that resentment which must naturally arise in their breasts when they found that those men who had resigned everything in defence of the Country were subject to the arbitrary determination of its inveterate enemies, hurried them into irregularities which cannot be justified, but for which, your Committee conceives the peculiar circumstances of the situation are almost a sufficient apology.

In order to prevent future complaints from the said company and to obtain its proper quota of men, your Committee are of opinion that it be recommended to Colonel Locke to divide Capt. Johnston's company into two companies and appoint another Captain and other proper officers pro tempore, and then direct them to ballot as the Law requires.

Your Committee observe that Andrew Hunt, Esq., is charged with having given Judgment against the Petitioners not warranted by Law and from the state of the case, we believe the charge to be true, but it does not belong to us to determine in this matter; the Petitioners must seek redress in the proper Courts for that purpose appointed.

WILLIE JONES, Chairman.

Received from the Senate the following Message :

Mr. Speaker and Gentlemen of the House of Commons :

On reading the Bill for emitting eight hundred and fifty thousand pounds, &c., &c. for the third and last time, we propose the following amendments to-wit, in the second page to settling the sixteenths of dollars as they stood when the Bill went last from this House.

That four dollars per thousand be allowed the signers instead of three dollars and that the following clause be added to the Bill.

"And be it further enacted by the authority aforesaid that the public Treasurers of this State or either of them shall and they are hereby directed to attend at the place when the aforesaid money shall be struck to receive the same from the signers."

Should your House agree to these amendments you will send two of your House to see the same made.

A motion was made and seconded for concurring with the Senate in the amendments proposed to be made in the Bill for emitting eight hundred and fifty thousand pounds in the foregoing Message.

Mr. Person objected to the alteration of four dollars per thousand and to be allowed the signers of the Bills, &c., urging that three dollars was an allowance adequate to such service. After some time the question was put and carried in the affirmative 29 to 27.

Then on motion, ordered that the yeas and nays, on the said Question be taken down which are as follows :

Yea, Messrs. Johnston, F. Miller, Doty, Mitchel, Hunter, Griffin, Dupree, Sanders, McLemore, Whitaker, Jones, Bryan, Troy, Winsely, Wilson, Locke, Phifer, Cleveland, Hooper, Gilbert, Hardin, Bryan, Swain, Spruill, McLean, Nash, Shepperd, Smithwick and Alford.

Nays, Messrs. James Williams, Courtney, McCauley, Mallett, Farrow, Hicks, Devane, Gauge, Mayo, Turner, Cain, Clark, B. Clark, Cotton, Isaacs, Hawkins, Lindsay, Brooks, Haywood, Person, Hunter, Yancey, Rowan, Sessums, Miller, Clinton and Boyer.

Ordered that the following Message be sent to the Senate:

Mr. Speaker and Gentlemen of the Senate:

We have received and considered the Message of your House proposing amendments in the Bill for emitting eight hundred and fifty thousand pounds, &c. and cannot concur with you in settling the sixteenths of dollars in the second page; but agree that the signers be allowed four dollars per thousand for signing the Bills instead of three as the Bill went from this House.

We think that the clause you propose to be added is essentially necessary and readily agree to adopt that amendment.

Received from the Senate the following Message:

Mr. Speaker and Gentlemen of the House of Commons:

This House cannot recede from their proposed amendment relative to 200,000 1-16ths as they are satisfied that their utility in trade and commerce must far out balance the inconvenience and expence that may attend the emitting of them.

Resolved, that this House do accede to the amendments proposed by the Senate in the foregoing Message:

As it has been made evident this House from divers circumstance, which could not be foreseen at the time of passing a resolve to raise a French regiment under the Command of Colonel Chariol that the good intentions of the Colonel and the officers under his command cannot be carried into execution, as a sufficient number of privates of the French Nation can not be obtained to compleat the said regiment within this State or the vicinity thereof, resolved, therefore, that as this State cannot avail themselves of the good intentions of Colonel Chariol and his wishes to contribute his best endeavors to aid America in her contest with Great Britain occasioned by circumstances out of his power to command that this State have no further occasion for the services of Colonel Chariol or his officers, and that the privates who have been enlisted into the said regiment should be discharged and that the Colonel and the other officers be requested to settle the accounts of the Regi-

ment with the Governor and Council, and that Colonel Chariol his officers and men may be assured that if this State at a future day shall have an opportunity to call them into the service under more favorable circumstances that they will with pleasure embrace it.
